

## Supporting (Troubled) Families Programme

Hampshire County Council is leading a significant new programme with partners over the next three years, to transform the delivery of 'early help' for around 1,600 families who may struggle with a range of issues, such as school attendance, involvement in crime and antisocial behaviour and unemployment.

The programme is underpinned by a bottom up multi-agency approach through a series of cross agency Local Coordination Groups (LCG's) based on District Council boundaries. Each LCG is led by a Senior Responsible Officer (SRO), who are senior officers with the skills, experience and local presence to draw local key partners together and provide a single point of contact for the County Council's central programme team.

Contact details for the SRO's are:
