Summer SENCO Induction

This two day course provides practical information about the role of the SENCo and the policies and procedures that SENCos need to help them identify and support children with SEN in their setting. Attendees will further increase their knowledge of the SENCo role and responsibilities by developing and understanding of a range of children's special educational needs and ways to meet those needs. Emphasis will be placed on developing a positive relationship with parents who are encouraged to become a part of the planning. It will also provide a framework for liaising effectively with schools.

Open to: early year's provider SENCos for settings, trainee SENCos and key inclusion staff in the private, voluntary or independent sectors and EYE childminders
