

How might Ben be affected by the second hand smoke in this room?

Fill in the gaps below with the correct word:

clothes
asthma

smoke
coughs

smell
house

chemicals
worry

His hair will smell

He might get more
coughs and colds.

His clothes will have harmful
chemicals that cling to fabric.

Ben may be more likely to
smoke himself as there
are cigarettes lying around the
house

He might worry about
his family if they smoke and is more
likely to get asthma
or other smoking related illnesses.

Can you think of any other ways that Ben might be affected by second hand smoke?
