Indeed 86.7% of the CCG report their health as either good or very good, higher than both the South East (83.6%) and Nationally (81.2%).
Notes: 1 - White British includes those describing their ethnicity as English, Welsh, Scottish, Northern Irish or British. 2 - Marital and Civil Partnership status refers to the population aged 16 and over. 3 - A long term health problem or disability is one that limits a person’s day-to-day activities and has lasted, or is expected to last at least 12 months, including problems related to old age. 4 - General health is a self-assessment of a person’s general state of health. People were asked whether their health was very good, good, fair, bad or very bad. This is not based on a person’s health over any specified period of time. 5 - Language data refers to the population aged over 3 years. Data for some Protected Characteristics - gender reassignment, sexual orientation, pregnancy and maternity are not included in the 2011 Census. Hampshire in this factsheet refers to the combined administrative region of Hampshire County, Portsmouth and Southampton Source: Data used is from the Office for National Statistics (ONS) 2011 Census For more information please contact Hampshire County Council’s Demography team.
