South Eastern Hampshire CCG has a total population of 208,100. It has slightly more females than males with this differential very evident amongst the young adult population.

94.3% of this area’s resident population are ‘White-British’. Those in other ethnic groups account for 5.6%. The ethnic group ‘White Other’ accounts for 2.5% including White Irish individuals, amongst others. The Asian ethnic group accounts for 1.3% encompassing Indian ethnicity, with others.

In this area 98.1% of people (aged 3+) state that English is their ‘main language’. Other than English, Polish (0.3%) is the next most common main language. However, in this area 12% of all households are shown to contain no individuals with English as a main language.
93.6% of this area's population were born in the UK. At 2.9%, Europe is the next largest, the Middle East and Asia follows at 1.6% while Africa accounts for 1.1% while Antarctica and Oceania equal 0.3% of the populations country of birth. 80.0% of people in this area have a UK passport whilst 17.3% state that they have no passport. Individuals with passports from European countries (excluding the UK) stand at 1.3% followed by those with a Middle East and Asian passport at 0.5%.

52.2% of the CCG's adult population are married compared with 49.3% of the South East's and 46.6% of the national population. Conversely fewer are single (27.4%) when compared to either the South East (31.9%) or Nationally (34.6%) as a whole. Following the Civil Partnership Act of 2004, civil partnerships are now included and account for 0.1%.

Christianity is the largest religion in this area at 61.3%, followed by Muslim (Islam) at 0.4% while other equated to 0.5% of the population. A large percentage said that they had no religion (29.9%), whilst 7.2% did not state any religion at all.
In this area 24,800 households have dependent children. Of these, 56.8% are married/civil partnership households, 13.9% are cohabiting couples whilst 22.3% are lone parent households, largely in line with figures for the South East as a whole.

Self defined very good general health for the CCG is lower than than both the South East and Country as a whole. However, slightly more report good health compared to the regional and national levels. It is also key to note that the majority of the population within this area see themselves in good or very good health at 82.2% meaning that only 17.8% see themselves as either in fair, bad or very bad health.
The data collected by the 2011 Census estimates that across Hampshire there are 2,100 individuals who state having a Gypsy/Irish Traveller ethnicity.

According to this data South Eastern Hampshire CCG (the area highlighted in pink on the map) is estimated to be home to 300 Gypsy/Irish Travellers.

Notes: 1 - White British includes those describing their ethnicity as English, Welsh, Scottish, Northern Irish or British. 2 - Marital and Civil Partnership status refers to the population aged 16 and over. 3 - A long term health problem or disability is one that limits a person’s day-to-day activities and has lasted, or is expected to last at least 12 months, including problems related to old age. 4 - General health is a self-assessment of a person’s general state of health. People were asked whether their health was very good, good, fair, bad or very bad. This is not based on a person’s health over any specified period of time. 5 - Language data refers to the population aged over 3 years. Data for some Protected Characteristics-gender reassignment, sexual orientation, pregnancy and maternity are not included in the 2011 Census. Hampshire in this factsheet refers to the combined administrative region of Hampshire County, Portsmouth and Southampton Source: Data used is from the Office for National Statistics (ONS) 2011 Census.
