% of Resident Workers

% of Workplace Workers

Out-commuting

To known destinations with 300+ residents & all Hampshire LAs

In-commuting

From known origins with 300+ residents & all Hampshire LAs

Commuter Flows and Main Method of Travel to Work

The Census 2011 commuter data measures workers aged 16yrs+, while Census 2001 data measures workers aged 16-74yrs. Comparisons between the census numbers should be used with caution due to the difference in age bands, natural population growth over time and economic conditions at the time of census collection which affect worker numbers. The percentage values provide a better relative comparison, although not strictly measuring like-for-like.
