To Rest of UK Destinations = 2,293 resident workers.  
Offshore Installations & Outside UK = 268

## In-commuting

From known origins with 300+ residents & all Hampshire LAs

From Rest of UK Origins = 2,581 workers

### Commuter Flows and Main Method of Travel to Work

The Census 2011 commuter data measures workers aged 16yrs+, while Census 2001 data measures workers aged 16-74yrs. Comparisons between the census numbers should be used with caution due to the difference in age bands, natural population growth over time and economic conditions at the time of census collection which affect worker numbers. The percentage values provide a better relative comparison, although not strictly measuring like-for-like.

#### Top Five Destinations of Out-commuters

Number and percentage of total employed Resident Workers  
Table ranked by Census 2011 figures with the figure for the same area given for 2001

#### Top Five Origins of In-commuters

Number and percentage of total employed Workplace Workers  
Table ranked by Census 2011 figures with the figure for the same area given for 2001

#### Main Method of Travel to Work
