New Knowledge Hub

The Knowledge Hub is being rolled out to replace the Communities of Practice forum. It is an online centralised location for information, development, networking and understanding. It enables staff to access information that is relevant to their working area, sector to sector, and beyond. Knowledge Hub will take information from a wide range of sources, sector to sector to work together and share experiences. This sharing and learning will improve local safeguarding work.

The Knowledge Hub supports development and dissemination of Safeguarding Adults work, it is intended to bring together key safeguarding work, initiatives and developments for our Adult Services Department.

Safeguarding A Legal Guide for Practitioners

The aims of the conference are:

- To provide clarity on expectation of roles and levels of authority
- To provide knowledge and documentation update
- To support best practice

Success Story

We anticipate there will be high demand and places will be filled on a first come first served basis.

Safeguarding Review Workshop

On the 9th March the Adult Services Department held a workshop on ‘reviewing your safeguarding work’.

Laura Cameron, Social Worker

In June 2011 Havant Area Office received an allegation of financial abuse by a paid carer.

From 2nd April 2012, the Hampshire police have a new central referral process for all adult safeguarding referrals. The Central Referral Unit will receive and will be able to access and manage all safeguarding referrals.

We know there are many examples of great work in safeguarding locally, and we would like to hear about them.

If you have updated knowledge or experience of safeguarding work and want to share it with other professionals, please email us.

In light of the increasing number of reports of institutional abuse that have been received recently a workshop is to be held in April looking at Hampshire’s response to these events.

We are pleased to announce a half day conference will be held on 29th May at the Middlebrook Centre in Winchester. The event will focus on the area of practice and skills development within safeguarding. The event will bring together colleagues from across all service areas of OP, PD, LD, Mental Health, Hospital Discharge Teams and Substance Abuse.
