

## Late Spring/Early Summer I Spy

Summer is almost here! The days are much longer, and the weather is changing... Late spring/summer is a great time for wildlife and plants, with flowers opening and birds nesting. Have a look around your garden, or on your walk, and see if you can spot any of these signs of summer in the next few weeks!

A butterfly!

A bee!

Rhododendrons!

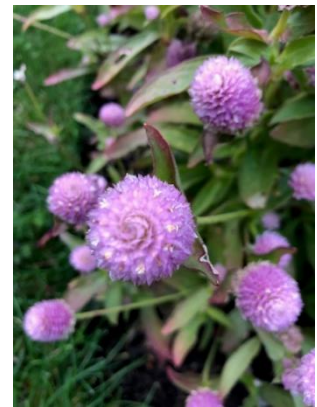

Petals!

A tree with unusual bark!

A spider's web!

Flowers with interesting shapes!

A robin!

Wild garlic! (Can you smell it before you see it?)

### **BONUS**

-  A nibbled leaf!
-  A daisy!
-  A yellow flower!
