2. Childcare places analysis

2.1 Childcare mix known at May 2019

This data is produced by the Services for Young Children Local Development Team (LDT) of Ofsted registered childcare from known changes in the childcare market that have occurred in the period.

Table 1 Childcare Places

Source: All Services Report, Capita

Provider type	Total number of providers gained or settings that have extended places	Total number of registered places gained (if known)	Total number of providers lost	Total number of registered spaces lost (if known)	Net growth or loss of places since the last quarter (- / +)
Childminders	6		15		<27
Home child carers	4		5		-2
EYE Non-Domestic Premises – Full Day Care	2	60	2	60	0

EYE Non-Domestic Premises – Term Time Care Q3 Q4	2	54	2	54	0
Holiday Playscheme	1	30	0	0	30
ASC (inc BC)	2	30	1	15	15

Comment:

During this year 22 childminders have opened, 4 home childcarers, 1 nursery, 2 term time provisions and a breakfast club.

However 26 childminders have ceased operating, 11 home childcarers have ended their registration, 2 term time providers, 1 holiday scheme and 1 after school club have closed.

While the figures indicate an overall loss of 15 known childminder places many of these will not have been active.

An assumption of 2 places has been made on the number of homechildcare places as it is not known how many children they support which results in a loss of 2 places.

During this period 2 term time providers have opened offering 62 places so the overall loss to the market is 14 places.

2.2 New childcare and early years provision known at April – March 2019

This is data that is known to the Local Development Team of childcare developments that have completed registration in the period. That data includes all types of provision including childminders.

Table 2 New Provisions **Source:** All Services Report, Capita ONE

¹ Where providers have informed data will be inserted for age range. Assumption will be made based on information provided to the development officer where data is not provided. Childminders will be assumed 3 places.

² Key: FDC – Full Day Care, SC – Sessional Care, OSC- Out of School Care, CM – Childminder, HC – Home Child Carer

Comment:

If an assumption of 3 children per childminder is made where no numbers are known it can be estimated that there will be 20 new childminder places in the market. An assumption of 2 children per Home childcarer adds 14 places to the market with a further 46 full day care places in Southam plus 38 term time places in Old Basing. The opening of an out of school/breakfast club provisions will provide 16 new places Burghclere while 2 holiday schemes will offer places in Hatchwarren & Beggerwood and Winklebury

2.3 Proposed childcare and early years provision known at May 2019

This is data known to the Local Development Team of childcare provision that is proposed to be developed. It is likely that these provisions have made application to Ofsted.

Comment:

It is likely that the proposed provision had converted to known providers above or withdrawn their interest at this time

2.4 Early years and childcare provision under threat of closure known at March 2019

This data is provided by the Local Development Team to indicate areas where childcare operations are known to have difficulty in the childcare market.

Note: Where a number is not indicated the assumption is that the carer has not provided childcare for some time.

Comment:

In this period the assumption is that there has been a total potential loss of up to 74 places. 26 childminder places, 12 Home childcarer places, 16 holiday playscheme places and 20 out of school places.

NB: Ofsted inspections are resulting in removal from the Early Years register of childminders who are currently not supporting children. Where a childminder has no child under 5 years of age they are moved to the Childcare register (5 – 8 years). (Indications are that many hold on to their early years registration due the higher cost of the childcare register only option).

3. Early Years Education (EYE) – Free Entitlement

Hampshire County Council keeps a register of all approved childcare and early years provision that provides the government’s free early years entitlement. Free early years education (EYE) places are available in school nursery classes, state or private nursery schools, day nurseries, playgroups or pre-schools and with approved childminders. Free early years education is available to all children the term after their third and fourth birthday. Some children whose circumstances or family circumstances meet eligibility criteria can also receive free early years education the funding period after their second birthday.

3.1 Early Years Education for Two Year Olds

This is part of a national offer from the Department for Education (DfE) and has been developed to improve outcomes for identified two year olds who meet or their family’s income or circumstances meet, certain eligibility criteria. Further details can be found at <http://www.hants.gov.uk/parents/cis/eye/2-year-old-offer-2.htm>

3.2 Number of settings able to provide early years education to 2/3 and 4 Year olds in the Private Voluntary and Independent sector: [Appendix 1]

This is based on the settings that are approved to deliver early years funding Spring 2019 and capacity including the number of the hours and weeks open. The details of providers that offer the extended entitlement (30 hours) [list of Hampshire providers](#). section 5. Details of all providers who have agreed to be published can be found through the Family Information Directory at <https://fid.hants.gov.uk/>.

3.3 Development of childminder EYE provision

There are 126 Ofsted registered child minders who are approved to deliver early years education. In the Basingstoke and Deane area there are a total of 175 registered child minders 86.3% of these are graded by Ofsted as “Good or Outstanding”.

The Childcare Development and Business Officer (CDBO) continues to encourage newly registered childminders to offer early years education funding.

3.4 Development of group EYE provision

There are 97 childcare settings delivering early years education in the district who are a mix of private, voluntary and maintained settings. There has been a decrease of 2 sessional care settings during this period equating to a loss of 48 childcare places. One sessional care setting has opened with a total number of 32 places and one full day care offering 20 places resulting in an overall gain of 4 places. The 2 pre schools that closed were experiencing low take up by families.

3.5 Take up of the Free Early Years Entitlement by two, three and four year olds

Table 7 below provides the numbers of children in the district that access their early years education and this is assessed against the small area population forecast to provide a proxy level of take up.

Note: Some percentages may be greater than 100% this is due to SAPF being a modelled population forecast and the numbers of actual children is greater than the prediction made at that time.

Comment:

Table 7 highlights that the expected Wards; Buckskin, Popley East, Norden and South Ham have a higher proportion of eligible two year olds who are claiming the funding.

The table also indicates the average weekly early years education take up of hours has decreased in some Wards indicating there may be some restriction of EYE hours available for parents to maximise their free entitlement. It is possible that the 32 eligible 2 year olds in the South Ham area have impacted on the number of hours available for 3 and 4 year olds as figures indicate 58.33% take up by 3 year olds. There is a project to deliver a 40 place nursery in South Ham 2018.

Percentage of two year olds taking up the free offer against Department for Education DWP proxy target

The Department for Education in partnership with the Department for Work and Pensions provides the local authority with numbers of families who are most likely to meet eligibility criteria for two year old funding. This data is used to as a proxy measure to assess the take up of the offer by eligible families. The details below outline the position. Hampshire has an indicative number of 4000 children to reach.

Comment:

Basingstoke and Deane currently has 35 settings waiting their first Ofsted grading inspection. The overall picture for Ofsted outcomes for the district is positive with 97% of group childcare settings achieving an Ofsted grading of “Good or Outstanding” with 36% achieving an “Outstanding” grade.

Free entitlement for 2 year olds is expected to be provided through Ofsted Early Years registered provision that has an inspection outcome of “Good” or “Outstanding”. The local authority will only fund 2 year olds in provision less than “Good” where continuity of care for children is required or there is insufficient choice in the market. Such providers are required to have appropriate local authority support in place. All the providers in Table 12 have active support plans in place.

6. Development of provision for Special Needs

Services for Young Children Inclusion Team are committed to ensuring that all eligible children are able to attend an early years or childcare setting irrelevant of any disability or additional support need. Ideally we would see this happening in the child’s local setting or parents choice of setting, however where a child’s needs cannot be met by this provider we will work with partners to support the identification of an appropriate alternative.

The Inclusion Team will use a range of resources to support settings to be able to provide quality care for all children. This will include:

- the provision of additional funding through the Inclusion Fund process
- direct support from the Area Inclusion team,
- outreach support from one of the contracted expert providers
- support from the Portage Service, and
- training or support groups.

7. Development of out of school and holiday provision

The data for April – March 2019 highlights that there are 54 settings in the district that make up, breakfast clubs, after school clubs and holiday schemes. The highest proportion of settings in the area is run by third party providers using schools and community centres as venues. Where populations of children will grow in planned new housing developments there may further out of school childcare to support areas such as Popley West. Childminders do contribute a small level of out of school care in the area. Beggarwood requires further childminder growth to accommodate the increasing numbers generally.

8. Parental demand

There is no current parental demand reported directly to the local office.

Comment

After analysis of the data available for the year up to 31 March 2019 while the figures indicate an overall loss of 15 known childminder places many of these will not have been active. Two after school clubs have opened offering 15 places, one has closed leaving a net increase of 15 childcare places plus one holiday playscheme offering

30 places. Making an assumption of 2 places per childminder the net increase of childcare places across the year is 25 or greater.

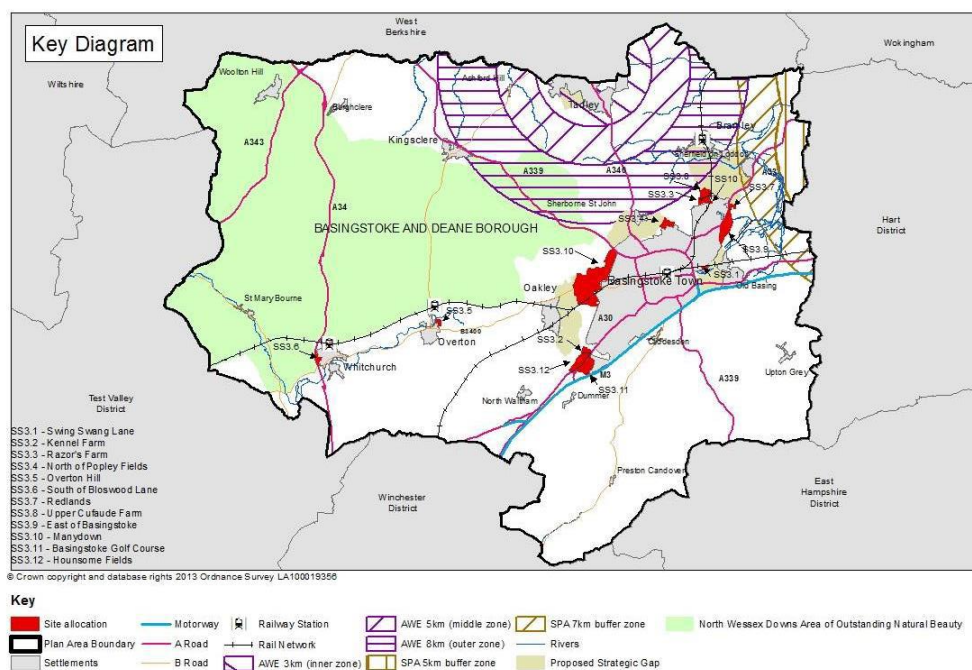

Hatchwarren and Beggarwood continues to be monitored as housing numbers in that area increase.

Figures indicate that a high number of 2 year olds continue to take up places in Buckskin (83%) and Popley West (96%) Other areas indicate 100+ take up although the numbers of children are less.

The impact of the two year old places and the introduction of 30 hours remains a focus for the Local Development Teams with training support and guidance available to help settings support the growth of childcare places. During this year the numbers of group providers approved to take two year olds remains constant with all new providers registering 0 – 5 or 2 – 5 year olds. This equates to 94 private, voluntary and independent (PVI) providers and 126 EYE child minders. The number of EYE childminders has reduced by 10 over the year.

Demographic and population changes

Basingstoke and Deane will have significant additional new housing built by 2023 with the majority of these planned for the Hatchwarren and Beggarwood and Sherborne St John Wards. <https://www.basingstoke.gov.uk/content/doclib/1592.pdf>

According to Hampshire’s Small Area Population Forecast <http://www3.hants.gov.uk/factsandfigures/population-statistics/pop-estimates/small-area-pop-stats.htm> there were a total of 10866 0-4 year olds in 2018 a reduction on the previous year then increasing to 11323 in 2023, 11415 in 2025. This indicates a rise of 549 children within this age range over the next seven years and an increase of this population.

This in turn is likely to have an impact on childcare and school places in the district which is outlined in the Hampshire School Places Plan 2019 - 2023. <https://www.hants.gov.uk/educationandlearning/schoolplacesplan>

Childcare places and trends

A strategy is being devised to address the childcare gaps in some wards and focus on identifying specific pieces of work, in line with the gaps in the childcare market within this district.

EYE entitlement places and trends in take up

The CDBO has identified supply and demand of places and undertaken further research using Free School Meal and current sufficiency data. The research has highlighted that there would be a capacity issue for EYE places within the following wards:

- Hatchwarren and Beggarwood to the south west of Basingstoke in support of families moving in to homes early in the building phase childcare places were increased in the established Wards of Brighton Hill South and North in 2017. *Further plans for a full day care nursery to be located in the early phase of the golf course development has been discussed with planning colleagues.*

- Bramley and Sherfield and North East of Basingstoke; discussions have taken place with Basingstoke and Deane planners about the required childcare places.
- Sherborne St John, While development on the Manydown site has not commenced discussions have taken place with school colleagues and Basingstoke and Deane planners outlining requirements for childcare at the site. A proposal for a 90 place nursery in the early stages of development has been made with further provision required as the numbers of homes grow.

The EYE take up of childcare places within the district has increased for both three and four year olds across the reporting period. The EYE take up by population for three years olds within the PVI sector is 86.4% a reduction from the previous 89.2% and for four year olds is 28.42% (without schools).

The number of 2 year olds taking up places across the year has reduced 12.7. Spring take up by eligible 2 year olds was 12.7% in Autumn take up by eligible 2 year olds was 13.95% showing a reduction in the percentage of 2 year old take up against population. (Tab 1a Headcount Spring 2018/2019)

Department for Work and Pensions (DWP) list and take up challenges

According to the Hampshire Labour Market Bulletins the benefit claimants in Basingstoke and Deane have increased by 50 (1.9%) over this reporting period. Benefit claimants remain at 1.0%.

According to the Hampshire hub data and 2011 economic analysis, the district had a 5% claimant count which has reduced to 1.9% over 5 years. Average gross weekly pay (median resident based) £647.20. Therefore, based on the parent's likely annual household income, the number of 'eligible' two year olds may decrease accordingly over time.

Quality of provision

There are currently 220 early years education approved providers within the district of these 25 are settings waiting for their first Ofsted grading. Ofsted outcomes for the district are positive for the district with 87% of group childcare settings achieving an Ofsted grading of "Good or Outstanding" with 32% achieving an "Outstanding" grade.

There are currently 94 PVI settings, 126 EYE childminders approved to take children who are in receipt of two year old funding. During the period April 2018 to March 2019 there have been an average of 300 children approved for 2 year old funding in Basingstoke and Deane. The majority of these children are from the Wards of Buckskin, Norden and Popley East.

Special Educational Needs and Disabilities SEND development

Data not provided

Developments and any changes in the locality that affect childcare

There has been a net increase of 25 childcare places between 01 April 2018 and 31 March 2019 most of these are afterschool or holiday playscheme. The introduction of 30 hours funded childcare has raised the expectations of parents and carers who are now seeking wrap around care for their children.

Areas that might be of concern are the childminding sector which highlighted that although there potentially were 12 childcare places gained there has been a loss of 30 places (although many of these places are likely not to have been actively minding).

According to Hampshire's childcare information data, in Basingstoke and Deane there are 175 childminders of which 126 are approved for Early Years Education funding.

With the housing developments over the coming years (2018-2024/2028) within Basingstoke and Deane there is potential requirement to increase childcare places within the following areas subject to other childcare developments unknown at the time of the report:

- Hatchwarren and Beggarwood to the south west of Basingstoke
- South west Basingstoke plans for a 90 place full day care nursery to be located in the early phase of the golf course development
- Bramley and Sherfield, North East of Basingstoke the number of childcare places is to be determined once plans for the area are finalised

Sherborne St John, Manydown is a large development requiring more than one provision as each phase comes forward. A 90 place nursery in the early stages of development has been proposed further provision would be required as the numbers of homes grow.

The CDBO is working with the local Parishes, providers, premises owners and committees to secure future childcare places and provision.

Identified Gaps and Action Plan

The CDBO will continue to monitor take up as 30 hours funded entitlement is established. There is a need to ensure that this does not impact on 2 year olds or reduce the number of hours available for 3 and 4 year olds.

The CDBO has identified priority growth areas with focused work on particular wards.

- Hatchwarren and Beggarwood to the south west of Basingstoke
- South west Basingstoke
- Bramley and Sherfield, North East of Basingstoke

- Sherborne St John, Manydown
