

Additional funding to boost your child's chance of success

Talk to your childminder, nursery or pre-school about claiming the Early Years Pupil Premium for your eligible three or four year old

Childminders, nurseries and pre-schools providing Government funded education places can receive additional funding to support the development, learning and care of eligible children that attend free early years education sessions.

As a parent if you are in receipt of certain welfare benefits; or your child is looked after by the Local Authority, or has been adopted from care, or has left care under a special guardianship or residence order; then your family is eligible for the Early Years Pupil Premium.

With the premium your child could benefit from:

- Programmes to support speech and language development
- Extra help to prepare for starting school
- Further training for staff who will be better equipped to support your child
- Additional support obtained from your child's setting by pooling the funding together with other education providers

Don't delay, apply today!
