# Background

The Household Support Fund (HSF) has been distributed by Department for Work and Pensions (DWP) through County and Unitary Councils since October 2021 and has been extended to March 2026. This seventh round of HSF funding is running from April 2025 to March 2026 and is to be used primarily to support Hampshire households in the most need with food, energy and water bills and is intended to cover a range of low-income households including families with children of all ages, pensioners, unpaid carers, care leavers and disabled people.

Hampshire County Council's funding is managed by the Connect4communities Team to offer a range of support to households who are facing financial hardship and struggling to pay for food and fuel. These supportive measures will be delivered through a number of local organisations, including schools and education settings, community pantries, Citizens Advice and district and borough councils.

The Connect4communities Team does not give out support directly to individual householders but works with partner organisations to do so. This document lists details of all Hampshire organisations that have been awarded funding from HSF Round 7 to deliver projects and activities that help local households and families in the community with food-related support. Individuals wanting to access a funded project will need to contact the organisation directly.

This document will be updated with details of food-based support available across Hampshire through the community grants programme as further grants are awarded – make sure to bookmark the [Support from Community Organisations](#) webpage on the Connect4communities website.
