Introduction

This booklet summarises the wide range of services, advice and provision available for children and young people with Education, Health and Care (EHC) plans.

Hampshire County Council maintains a continuum of provision for children and young people with special educational needs (SEN) through maintained and other state-funded schools and colleges. A key principle of Hampshire County Council's SEN policy is that all children and young people should receive an appropriate education in mainstream schools and colleges. In Hampshire most children and young people with SEN attend local mainstream schools and colleges where they receive the support they need. The County Council as the local authority must ensure that a child or young person with an EHC plan is educated in a mainstream school or college unless it would be unsuitable for the age, ability, aptitude or SEN of the child or young person, or the attendance of the child or young person there would be incompatible with the efficient education of others, or the efficient use of resources.

It is also recognised, however, that special schools and specialist resourced provisions in mainstream schools play important roles in the overall continuum of provision for children and young people with SEN and if a child or young person requires provision outside of that provided in a mainstream school then we will consider options for placement in local maintained specialist provision. Details of the specialist provision maintained in Hampshire are given in this guidance.

Hampshire County Council Children's Services Department ensures that support is available to individual children and young people, including those with SEN, and to their parents/carers. We aim to work closely with families, schools, colleges and other agencies to give all children and young people access to high quality learning opportunities and by providing a range of services including the SEN Service, Hampshire & Isle of Wight Educational Psychology, Services for Young Children and the Specialist Teacher Advisory Service.

School/college staff will be able to discuss any questions you may have about the school/college and your child's education. Other Children's Services Department professionals that can help you including:

- Educational psychologists, who offer practical help and guidance to children and young people with physical, emotional, behavioural or learning difficulties, their parents/carers and the staff who work with them.
- Specialist teacher advisers, who provide a range of services including advice and support to children and young people, parents/carers and schools/colleges to help children and young people with physical disabilities and visual and hearing impairments.

Throughout this guidance, where the term school is used, this also includes Hampshire's Early Years Settings.

Provision

Mainstream schools

All state-funded mainstream schools have a statutory responsibility to meet the needs of children with SEN. Every mainstream school has a designated SEN Governor and a SEN Co-ordinator (SENCo) to help them fulfil these responsibilities.

The key responsibilities of the SENCo include:

- overseeing the day-to-day operation of the school's SEN policy
- liaising with and advising other teachers
- managing other SEN staff and learning support assistants
- co-ordinating provision for pupils with SEN
- liaising with the parents/carers of pupils with SEN
- contributing to the in-service training of staff
- liaising with external agencies such as the County Council's support services, health and social care services and voluntary bodies.

Most children with SEN will have their needs met in mainstream schools at *SEN Support* – this recognises where children have special educational needs of one type or another, usually identified by school staff or other professionals, and those needs can be fully met through the resources *ordinarily available* in any state-funded mainstream school.

Children at *SEN Support* will have a SEN Support Plan (sometimes called an Individual Education Plan); The SEN Support Plan will always be written and regularly reviewed with the involvement of parents/carers and usually with the child too. A SEN Support Plan is usually sufficient to meeting most children's SEN.

Children with the most complex needs may be subject to an education, health and care (EHC) assessment. This is a more formal, multi-agency investigation into a child's SEN and may lead to the child being made an EHC plan – a legal document that sets-out all of the child's SEN and the special educational provision that must be made for them so that the child can achieve good outcomes. EHC plans must be reviewed at least once a year. These annual reviews are arranged by schools and colleges on behalf of the local authority. This provides an opportunity for parents/carers, the child, the school and other professionals involved to celebrate the progress the child has made over the previous 12 months, make any changes to the EHC plan or consider if an EHC plan is no longer needed.

Further details and information on all mainstream schools in Hampshire can be found at www.hants.gov.uk/educationandlearning/findaschool or <https://fish.hants.gov.uk/localoffer>

Children living near to the Hampshire boundary might attend a school in a neighbouring authority, e.g. Dorset, Wiltshire, Portsmouth, Southampton, Surrey, Berkshire, West Sussex etc. Full details of Hampshire's admission arrangements and further information and guidance relating to admissions can be found at www.hants.gov.uk/admissions.

Mainstream colleges

Further education and sixth form colleges

Most young people with SEN leaving school at the end of year 11 at either *SEN Support* stage or with an EHC plan will continue education at their local further education or sixth form college.

- **Statutory duties** - further education and sixth form colleges have a statutory responsibility to meet the needs of young people with SEN. The governing body should ensure a named person has oversight of SEN provision to co-ordinate support, similar to the role of the school SENCo. Colleges must use their *best endeavours* to secure the special educational provision a student needs and to make reasonable adjustments to prevent them being placed at a substantial disadvantage. Colleges should offer an inclusive approach to learning and teaching, with high quality teaching, differentiated for individuals.
- **Post-16 colleges in Hampshire** - offer a wide variety of courses, from pre-entry level to at least level 3 academic, vocational, work preparation and independent living; all colleges support young people with SEN and many are equipped to support learners with complex and multiple learning difficulties and disabilities.
- **SEN Support** - most young people with SEN will have their needs met in local further education and sixth form colleges at *SEN Support*. This recognises where young people have special educational needs of one type or another, usually identified by school or college staff or other professionals, and those needs can be fully met through the resources *ordinarily available* in any state-funded mainstream college or sixth form. Young people at *SEN Support* will have a SEN Support Plan (sometimes called an Individual Education Plan). The SEN Support Plan will always be written and regularly reviewed with the involvement of parents/carers and young people. A SEN Support Plan is usually sufficient to meeting most young people's SEN.

To ensure young people receive the support they need, colleges should:

- gather information about the support received in school/required in college; from schools, students and those working with them closely
- meet with young people to discuss their aspirations, the courses and support young people think will help them best
- agree plans with young people that prepare them for work and independence and detail the support they will put in place
- ensure the agreed support is put in place and that it is provided by appropriately qualified staff
- regularly review the support to consider its effectiveness, considering progress and changing aspirations; agreeing changes required.

There are 12 further education and sixth form colleges (including multi-campus provisions) and 7 schools with sixth forms in Hampshire. All offer support for learners with SEN. Details of these are on pages 5-7. Young people living near to the Hampshire boundary might attend a further education college or sixth form in a neighbouring authority, e.g. Dorset, Wiltshire, Portsmouth, Southampton, Surrey, Berkshire etc. Further details and information on all colleges can be found through the individual college website or the Local Offer website <https://fish.hants.gov.uk/localoffer>.

SEND Employability Hubs (EH) - the listed sites host Employability Hubs, which provide learners in receipt of Education Health and Care plans (EHC plans) with pathways to employment from day one in post 16 education. They provide the skills, knowledge and experience for learners to transition from education to paid employment.

SEND Independence Hubs (IH) - the listed sites host Independence Hubs, which provide high needs learners (SLD and Complex Needs) with safe spaces and bespoke curriculum offers within mainstream college sites to develop pathways to adulthood. Each site is open to 8 Year 12 learners per year.

www.hants.gov.uk/educationandlearning/participation-lifelong-learning/send-employability-hub

Supported Internships (SI) - the listed sites host Supported internships, which are structured study programmes based primarily at an employer. They enable young people aged 16-24 with an EHC plan to achieve sustainable paid employment by equipping them with the skills they need for work, through learning in the workplace. Supported Internships are also hosted outside of colleges sites, additional providers of Supported Internships are available on the Local Offer.

You can find out more about post 16 offers at **<https://fish.hants.gov.uk/localoffer>**

Specially resourced provision

Some mainstream schools host specially resourced provisions which make inclusive provision for children with higher levels of need than might ordinarily be met in mainstream schools alone. Hampshire currently has 61 resourced provisions (5 in nurseries, 5 in nursery/infant schools, 32 in primary and 19 in secondary schools). Details of these schools and a web link to further information for each school are given on pages 10-16.

Specially resourced provisions cater for children with a specific category of SEN, such as hearing impairment; physical disabilities; specific learning difficulties, etc and enable children to access a mainstream curriculum in a supportive environment where there are staff who have relevant specialist expertise and knowledge.

The child will normally spend most of his or her time in mainstream classes with friends and peers but will also spend some time in the resourced provision to access the additional specialist help and support available there.

Special schools

Special schools are “*schools specially organised to make special educational provision for pupils with special educational needs*” (Department for Education). In Hampshire there are 27 special schools to provide places for children with EHC plans whose level of special educational need is more severe and complex than might ordinarily be met at mainstream school or resourced provision. Some of these schools also provide for pre-school children with very significant needs. Hampshire special schools provide for a wide range of special educational need, with 10 catering for the 2-19 age range, 8 for the primary age range and 10 the secondary age range. Details of these schools and a web link to further information for each school are given on pages 18-21.

Some special schools focus provision on specific categories of SEN, e.g. severe learning difficulties (SLD) or social, emotional and mental health (SEMH) difficulties, whilst others work with a broader range of need. For example, all moderate learning difficulty (MLD) schools include provision for children on the autistic spectrum. Some of those schools making provision for children aged between 2-19 are designated as learning difficulty (LD) schools, reflecting both the wide range of needs of pupils attending these schools and the breadth of provision available to meet them.

Class sizes in special schools are generally smaller than those in mainstream schools, resulting in higher staff/pupil ratios. The special schools have a high level of specialist resources, including staff with specialist expertise, and provide a focus for multi-agency involvement.

Special schools offer a highly structured, modified curriculum delivered at a pace and level matched to pupils' individual needs. Each child will have a personal plan which sets out short-term targets and the support provided to achieve them and which is designed to facilitate their individual access to the curriculum. Depending on their level of need, secondary level children have the opportunity to gain accreditation at either Entry level or Foundation level at GCSE. Some schools also offer ASDAN and Vocational Studies courses.

At least once a year special schools must make arrangements for an annual review of each child's EHC plan. This is a way of monitoring and evaluating the effectiveness of their provision and placement and ensuring that once a year parents/carers, the child, the school and other professionals meet to discuss the child's progress and whether any changes or adjustments need to be made to the EHC plan.

List of special schools in Hampshire

Services in Hampshire

In Hampshire there are services and professionals to help parents/carers, children and young people. Details of some of these services are listed below. Please refer to Hampshire County Council's website for more information on other services.

Special Educational Needs Service

The SEN Service is dedicated to supporting children and young people with special educational needs and disabilities (SEND)

The service's primary function is to fulfil the local authority's statutory obligation to identify children and young people with SEN; conduct EHC assessments including coordinating the involvement of other professionals; write and review EHC plans; ensure a sufficiency of education places and educational opportunities for children and young people with SEN and EHC plans and place children and young people in those places. Information about the range of community services available to families of children with SEN is available on the County Council's Local Offer website <https://fish.hants.gov.uk/localoffer>.

The SEN Service Helpdesk is open from 9:15am to 4:45pm, Mondays, Tuesdays and Thursdays, 10am to 4:45pm Wednesdays and 9:15am to 4:15pm on Fridays. The Helpdesk is closed each day between 12:30pm and 1:30pm. Please contact us on **01329 316165**, senhelpdesk@hants.gov.uk or alternatively, email the appropriate team for your area of Hampshire.

We will do our best to answer your call as we understand that parents, carers and young people appreciate being able to talk to someone when they call.

If your child already has an EHC plan or we have agreed to carry out an EHC assessment, you will have an allocated caseworker and they will be best placed to respond to any questions or concerns you may have. Your call will be put through to your caseworker if they are immediately available and, if not, they will arrange a time when they can call you.

Specialist Teacher Advisory (STA) Service

STAS is a specialist multi-disciplinary team, who aim to share expertise by working in partnership with families, children or young people and educational staff. STAs aim to build capacity, act as advocates and promote quality provision and inclusion in all educational settings. Children and young people are supported, and empowered, to achieve throughout their learning journey and be well prepared for adulthood.

We support children and young people who are deaf or have hearing loss, have a vision impairment or physical disability, or have speech, language, communication and interaction needs.

Our team is made up of experienced teachers and other professionals with qualifications in their relevant specialisms. Once we receive a referral we will assess and support your child based on their level of need.

STAS can offer support to schools, parents or other professionals by phone or email. If you would like a consultation with a member of the service, please either email the STAS professional who is currently supporting your child or contact the relevant STAS Team Leader below.

Hampshire SENDIASS (SEND Information, Advice and Support Service)

SENDIASS is delivered in Hampshire by Polaris Children's Services.

What does SENDIASS do?

It's a free, confidential and impartial service that provides information and advice about SEND. It's for children and young people with SEND and their parents/carers. The service has:

- A website full of information and factsheets about SEND
 - A YouTube channel full of videos about SEND for parents and young people
 - Lots of information and updates via social media (hsendiass on Instagram, and Hampshire SENDIASS on Facebook)
 - Individual advice by telephone or email
 - One-to-one support for young people and for some parent/carers who meet criteria for support
- **SENDIASS can help with...**
 - listening to your views and concerns, and exploring your options,
 - your child's, rights around education, health and care,
 - discussions or meetings with school/college, the local authority and other agencies
 - understanding forms and documents
 - the EHCP process
 - fixed term and permanent exclusion
 - mediation services and dispute resolution
 - information about other agencies and organisations who may be able to support you.

Tel: 0808 164 5504

Email: info@hampshiresendiass.co.uk

Website: www.hampshiresendiass.co.uk

The helpline is open between 9.00 am and 5.00 pm Monday to Thursday, and 9.00 am to 4.00 pm on Fridays. A voicemail service is available during busy periods. Otherwise, please use the "Contact Us" form on the website.

Hampshire Parent Carer Network

Hampshire Parent Carer Network (HPCN) is an independent charitable organisation which enables parent carer members to help shape local provisions and services for their children and young people with additional needs. Interested professionals are also welcome to join.

HPCN has a working partnership agreement with Hampshire County Council and NHS Health to work alongside the professionals who provide health, education and social services in Hampshire. HPCN members participate in a wide range of regional and local meetings, learning events and work streams, consultations, focus groups and pilot schemes, in order to present the parent carer view, help shape services and improve outcomes for children, young people and families of those with SEN and disabilities. HPCN's input matters, because all of its members have local knowledge and personal experience which means they understand what families want and need from services in Hampshire.

HPCN also participates in regional and national consultations on behalf of its families. It is part of the South East region of the National Network of Parent Carer Forums (NNPCF).

For further information email participation@hpcn.org.uk, visit www.hpcn.org.uk or simply drop into an HPCN Get Together or Talk Together event.

Hampshire and Isle of Wight Educational Psychology (HIEP)

HIEP's team of Educational Psychologists (EPs) are based across four area teams and cover the whole of Hampshire and the Isle of Wight.

Psychology helps us understand how people think, feel, learn, and develop. EPs apply psychology to help children and young people to flourish in their learning and development. HIEP works in collaboration with parents/carers and school staff to promote learning, positive relationships, wellbeing, motivation, and educational achievement. The work of the EPs is often concerned with identifying children and young people's strengths and needs, helping to overcome any barriers to learning and promoting educational outcomes.

All of the EPs are fully qualified and have experience of working with children and young people. They are also registered as practitioner psychologists with the Health and Care Professions Council (HCPC). Trainee EPs undertaking a university doctoral programme in educational psychology often work with the service. All trainees are supervised by an HCPC registered psychologist, in line with national standards.

The service:

- works with children and young people from birth to 25 years of age, at the request of a school/college/early years setting or the SEN service
- may deliver a range of direct support work with children and young people, at the request of schools/colleges
- delivers training, consultancy, staff support and whole-setting work to mainstream and special schools, colleges, governors and others
- supports schools and other settings following sad events
- works with educational settings to develop policies in areas such as inclusion, behaviour management and wellbeing
- requires those who ask for EP involvement to have first obtained the agreement of parents/carers, and where possible, from the young person themselves
- can be contacted directly by parents/carers or young people. Each local team offers a telephone contact line for parents/carers to discuss queries and receive professional advice.

Area team contacts:

General Inspectors/Advisers (SEN) and SEN Teaching and Learning Advisers

- Monitor, evaluate and report on the quality of provision for children and young people with SEN and disabilities in mainstream and special schools and settings including specialist independent schools where Hampshire children and young people have been placed by Hampshire County Council.
- Advise and support schools and settings in the self-evaluation of their own provision, including methods of identification, assessment and interventions to remove barriers to learning, and raise standards for children and young people with SEN and disabilities.
- Provide training and consultancy for both special and mainstream schools and settings on all aspects of inclusion, e.g. curriculum access issues, quality of teaching and learning, assessment and interventions and the use of specialist programmes.
- Provide training and consultancy for governing bodies and senior leadership teams in special and mainstream schools and settings.
- Support schools, settings and parents/carers to meet the needs of children and young people with sensory, physical and learning difficulties and to support their curriculum progress.
- Advise on the development of policy and practice.

Email: hias.enquiries@hants.gov.uk

www.hants.gov.uk/hampshire-services/services-for-schools/school-improvement/hias

We have a team of SEN Advisers. Part of their role will be to handle the enquiries into the SEN support line, and update and maintain the SEN support toolkit. The remainder of their time is spent supporting schools, by working with teachers in the classroom to help adapt teaching to meet the more complex needs of children and young people in our schools. They will offer school-based consultancy including demonstration lessons and support with planning and teaching.

HIAS SEN Support Line and Toolkit

The SEN Support Toolkit includes a set of online resources which enable SENCOs and other mainstream school staff to fully explore options and support available from both the local authority and other organisations at the level of SEN support. Schools will be able to work through this before considering whether escalation to statutory assessment is required.

SEN Support Toolkit (Hampshire) - [SEN Support Toolkit: Toolkit Home \(hants.gov.uk\)](https://www.hants.gov.uk/SEN-support-toolkit)

SEN Support Toolkit (Isle of Wight) - [Isle of Wight SEN Support Toolkit: Home \(hants.gov.uk\)](https://www.hants.gov.uk/SEN-support-toolkit)

Closely aligned is the SEN Support Line which will be staffed by experienced SEN school leaders with a wide range of knowledge across different age groups and school sectors.

Where the toolkit will provide answers to relatively straightforward questions, and signposting to other support, the SEN Support Line will be able to offer bespoke advice and support with more complex challenges. Access to the SEN Support Line is via a short MS form which can be found [here](#).

In combination, these services, aim to support SENCOs in school and ensure that access to support and advice is easy to find for all school colleagues.

Primary Behaviour Service

The Primary Behaviour Service is a team of dedicated practitioners with extensive experience working in Hampshire primary schools to promote children's positive behaviour and emotional wellbeing.

This is a referral based service offering outreach and in-reach support for primary children with behavioural, emotional and social development needs.

The approach is to provide targeted early intervention in partnership with the child's school and parents. Core services that are on offer include:

- consultation and advice to leadership teams and SENCOs
- assessment and identification of need, deepening knowledge and shaping early intervention
- hands-on support and guidance for schools for a wide range of behavioural, emotional and social development needs at multiple levels
- rapid and flexible response to individual child referrals, to include family working where necessary
- bespoke behaviour management training for a range of staff, from individual settings to countywide training programmes
- access to inreach provision at each of the six centres in partnership with schools
- working preventatively to reduce exclusions through a blend of operational and strategic support.

Services for young children Hampshire Portage Service

Hampshire Portage is a home visiting educational service for children aged 1 year to statutory school age, with additional needs and their families. The Portage model empowers parents to build on their child's successes and models how to use small steps to help their child achieve new skills.

Portage Inclusion Practitioners (PIP) are experienced early years practitioners who have experience in understanding, recognising and developing the individual needs of the child. The service supports children with significant developmental delay in two skill areas, one of which must be cognition, supporting the development of play, communication, relationships and learning for young children within the family.

Hampshire Portage Service works in partnership with parents, carers and other professionals such as therapists, health visitors, paediatric consultants, educational psychologists and early years settings. Working collaboratively with parents encourages them to take a lead role in their child's learning and helping them to identify what is important to them and their child to ensure that everyone works towards shared common goals.

The family typically receive fortnightly home visits during which activities are planned to enable the child to learn through play and having fun. A flexible approach to support often extends to the early years setting the child attends. A Portage Inclusion Practitioner (PIP) will visit the child's early years setting regularly. Portage can be offered in the Early years setting only, where the setting requires the additional support.

Full Portage criteria can be found in our local offer here: **Portage local offer**.

Services for young children Inclusion team can also be involved to ensure a successful transition into an Early Years setting or into year R at school. This might be a Portage Inclusion Practitioner working with the family, or an Inclusion setting support officer (ISSO) supporting the Early Years setting with advice and guidance.

For more information about ISSO support can be found here: **Family Information and Services Hub | Inclusion Setting Support Officer (ISSO) (hants.gov.uk)**

Contact details for Young Children Offices are here:

www.hants.gov.uk/socialcareandhealth/childrenandfamilies/childcare/providers/sfyc-offices

County Admissions Team

All children with a final EHC plan will have their school placement organised by the SEN Service. Parents/carers of these children and young people should contact the SEN Service to discuss any concerns about their child's admission to school. For all children without a final EHC plan, school admissions are processed as detailed below.

Main admissions round

For parents living in Hampshire (not including Portsmouth or Southampton) with a child due to start school (Year R); transfer from infant to junior school (Year 3) or start secondary school (Year 7) in September, the County Admissions Team coordinates applications for all mainstream school places regardless of the status or local authority of the publicly funded school for which they wish to apply through to 31 August. Residents of other local authorities should apply to their home local authority.

The deadline for applications for secondary school (Year 7) in September is 31 October. The outcome of these applications is sent to parents by email (if they applied online) or by second class post typically on 1 March.

The deadline for applications to start school (in Year R) in September, or to transfer to Year 3 in a junior school in September, is 15 January. The outcome of these applications is sent to parents by email (if they applied online) or by second class post typically on 16 April.

In-year admissions

For admissions after the start of the school year or to other year groups, applications are processed by Hampshire schools. For any assistance or information about the availability of places, please contact the Admissions Team, details below. For applications to schools in other local authorities, the parent should contact the local authority or school directly.

Making an application

Applications can be made online at www.hants.gov.uk/admissions, or alternatively, application forms are available from schools.

The County Council's admission arrangements, including its admission policy, are consulted on and determined each year in accordance with statutory requirements, well in advance of the school year to which they relate. Each school has an admission policy: community and controlled schools follow the County Council's policy; voluntary aided, foundation and academy schools determine their own admission policies. Where a school is oversubscribed, the school's admission policy is used to prioritise applications.

Full details of Hampshire's admission arrangements and further information and guidance relating to admissions can be found at www.hants.gov.uk/admissions.

Contact

County Admissions Team, Children's Services Department, Hampshire County Council, The Castle, Winchester, SO23 8UG.

Tel: 0300 555 1377

Email: admissions.team@hants.gov.uk

Participation and Lifelong Learning

Young People's Learning focuses on preparing young people with additional needs to make a successful transition to adult life.

We achieve this by delivering high-quality Pathways and Supported Internship programmes that build young peoples' resilience, knowledge, and skills through a programme of classroom, outdoor learning and work-related learning with work experience opportunities.

Specialist and individual support is given to young people with SEN to enable them to progress and achieve. We work hand in hand with parents/carers to ensure these programmes are meeting each learner's individual needs.

We recognise the important contribution our learners can make in the workplace and the positive impact earning a living can have on individual's self-worth/esteem.

Pathways

The Pathways programme supports young people to build confidence in making personal and independent choices, as well as helping them to understand how these impact on their wellbeing, confidence, social skills, planning skills, social awareness, and motivation. This course also includes work related learning in the form of projects, mock interviews and meeting employers. Our learning strategy is 'learning by doing.' Skills Coaches provide classroom, small group and 1:1 support to learners to support their personal development and independence skills. These learners also undertake a Duke of Edinburg Award and those who can complete a residential as part of this programme.

Supported Internships

Supported Internships are designed for young people who really want to move into employment.

The programme gives SEND young people who have EHCPs the experience of working and helps them to develop their employability skills so that the move into work is not as daunting. They will receive support with English, Maths and Essential Digital Skills alongside an Employability Skills qualification. Work placements and classroom learning sessions are supported by a Skills Coach.

Functional Skills

Functional skills are offered in both maths and English, tailored to a range of abilities. Learner's progress towards a nationally recognised qualification and gain skills valued by employers. Lessons are geared towards the use of maths and English in both practical and commercial contexts, allowing learners to increase their confidence and problem-solving skills. There is also a focus on developing key digital skills.

More detailed information: **Young People's Learning | Education and learning | Hampshire County Council (hants.gov.uk)**

To apply, complete the online form and email to **ypl@hants.gov.uk**. If you would like to discuss any of these programmes, please contact Alison Long, Curriculum Manager at **alison.long@hants.gov.uk**

Key to school status

Academy mainstream schools (primary and secondary) - independently managed, all ability schools set up by sponsors from business, faith or voluntary groups in partnership with the Department for Education and the local authority. Admissions are co-ordinated by Hampshire County Council.

Academy special schools - independently managed special schools set up by sponsors from business, faith or voluntary groups in partnership with the Department for Education and the local authority. Admissions are co-ordinated by Hampshire County Council.

Community schools - maintained by Hampshire County Council as the local authority.

Community special schools - for children with special educational needs, maintained by Hampshire County Council.

Federations - this term describes when two or more schools have a formal agreement to share governance arrangements and work together to raise standards.

Foundation schools - maintained by Hampshire County Council but the governors are responsible for admissions. Trust schools are included in this category.

Free schools - a new type of all ability state funded independent school, free from local authority control.

Voluntary schools - originally set up by voluntary bodies, such as the Church of England or Roman Catholic Church, but with most of their running costs now funded by Hampshire County Council. (**Voluntary aided** schools are responsible for their own admissions. **Voluntary controlled** schools follow Hampshire County Council's admission policy.
