

EASY-TO-MAKE...

BUZZING BEE

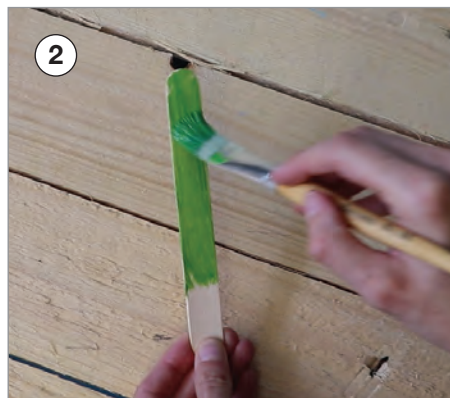

You will need:

- A paper plate
- Pombeadz (or pom-poms and pipecleaners)
- Lolly stick
- Paper flowers
- Paints
- Wiggle eyes
- Coloured and/or glittery card
- Scissors
- Glue

1 Start by painting sky and grass onto the paper plate. Set aside to dry while you make the bee.

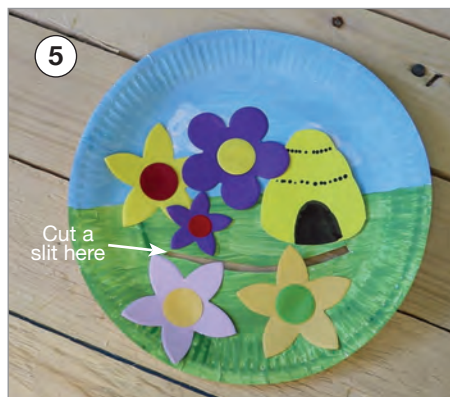

2 Paint the lolly stick with green paint and allow to dry.

3 Thread 3 pombeadz onto a pipecleaner (or glue 3 pom-poms onto a thin strip of card). Trim and bend the pipecleaner ends into a tail and long tongue.

4 Cut wings from glittery card. Glue in place at the back of the bee. Then glue the bee to the lolly stick. Glue on wiggle eyes and leave to dry.

5 Cut a narrow slit from left to right on the paper plate in the grass area. Then stick paper flowers onto the paper plate. If you want you can cut a hive shape from yellow card and glue in place among the flowers. Allow to dry.

6 Slide the bee into the slot cut into the plate. Holding the plate in one hand and the lolly stick in the other, wiggle the lolly stick to make the bee buzz from flower to flower.
