## Secondary schools with school specific criteria – 2011

Secondary Schools	Comments
Priestlands	Out-catchment distances measured to catchment area boundary. This criterion ensures that those who live furthest from the school and also furthest from alternative schools will be given priority.
Brookfield	Within oversubscription criterion 4, priority is given to children living in Warsash to the south of the school (meaning that they do not have to go past Brookfield on their way to an alternative school).
Robert Mays	In the event that the school oversubscribes in the 'out-catchment with a sibling' criterion those attending a linked school will be given priority. Distance from the school will then be used to order the list
Vyne	For children living in the Chineham detached catchment area, distance measurement will be from home to the main bus stop on Mattock Way.
Wavell	Out-catchment distances measured to catchment area boundary. The school lies on the southern edge of its catchment. This criterion will enhance the admission chances of out of catchment pupils attending linked schools to the north of the area.
