## **Schools in the Western Area of Hampshire below the Government's new floor standards based upon 2012 outcomes**

The coalition Government has set new floor standards for both primary and secondary schools and has asked Local Authorities to take a robust stance towards those schools below floor to secure rapid improvement.

A primary school is deemed to be below the floor standard if less than 60% of pupils attain Level 4 in reading and writing and mathematics, **and** where progress is less than the national median in these measures. The national medians last year were 90% in reading, 90% in writing and 87% in mathematics and have yet to be released for 2013.

A secondary school is deemed to be below the floor standard if less than 40% of pupils attain 5A\*-C including English and mathematics **and** where progress is less than the national median in both English **and** mathematics. The national medians were 68%% of pupils making three levels of progress in English and 61% of pupils making three levels of progress in mathematics last year but have yet to be released for 2013.

The list below is provisional whilst we await National data. Academies are shown in brackets.
