## **Schools in the Eastern Area of Hampshire below the Government's floor standards based upon 2013 outcomes**

The coalition Government has set floor standards for both primary and secondary schools and has asked Local Authorities to take a robust stance towards those schools below floor to secure rapid improvement.

A primary school is deemed to be below the floor standard if less than 60% of pupils attain Level 4 in reading, writing and mathematics **and** where progress is less than the national median in reading, writing **and** mathematics. The national medians being used by Ofsted are 91% of pupils making two levels of progress in reading, 95% of pupils making two levels of progress in writing and 92% of pupils making two levels of progress in mathematics.

A secondary school is deemed to be below the floor standard if less than 40% of pupils attain 5 A\*-C including English and mathematics **and** where progress is less than the national median in both English **and** mathematics. The national medians being used by Ofsted for 2013 are 73% of pupils making three levels of progress in English and 73% of pupils making three levels of progress in mathematics.
