

Supporting (Troubled) Families Programme Health & Wellbeing Board 4/2/15

Ian Langley, STFP Strategic Lead, HCC
e-mail: ian.langley@hants.gov.uk

Quick overview of Phase 1

- STFP Prime Ministerial priority to target 120,000 'high cost' families over 3yrs
 - Hants given target of identifying 1,590 families over 3yrs 2012-15 – c2,000 now identified, majority of families in poor health, or have poor health outcomes.
- 3 criteria used to identify families:
 - Youth crime/anti social behaviour.
 - Poor school attendance or exclusion from school.
 - Member of the family claiming an out of work benefit.
- 1,150 positive family outcomes recorded to date (200 for employment)
- 10 (multi-agency) Local Co-ordination groups identify & co-ordinate support for families – some Health presence
- Intensive Family Support Service (Transform) commissioned to support 500 families
- Emerging evidence that positive family outcomes are sustainable one year on - 90% for youth crime/ASB and 90% for education attendance/exclusions
- Independent evaluation commissioned from Portsmouth University (reports April '15)
- Transformational ambition to improve multi-agency input and support for families

(Troubled) Families with health problems

71% of phase 1 families included someone with at least one health problem*

*National data from Public Health England

We know that these issues are under reported

Hampshire Public Health and STFP

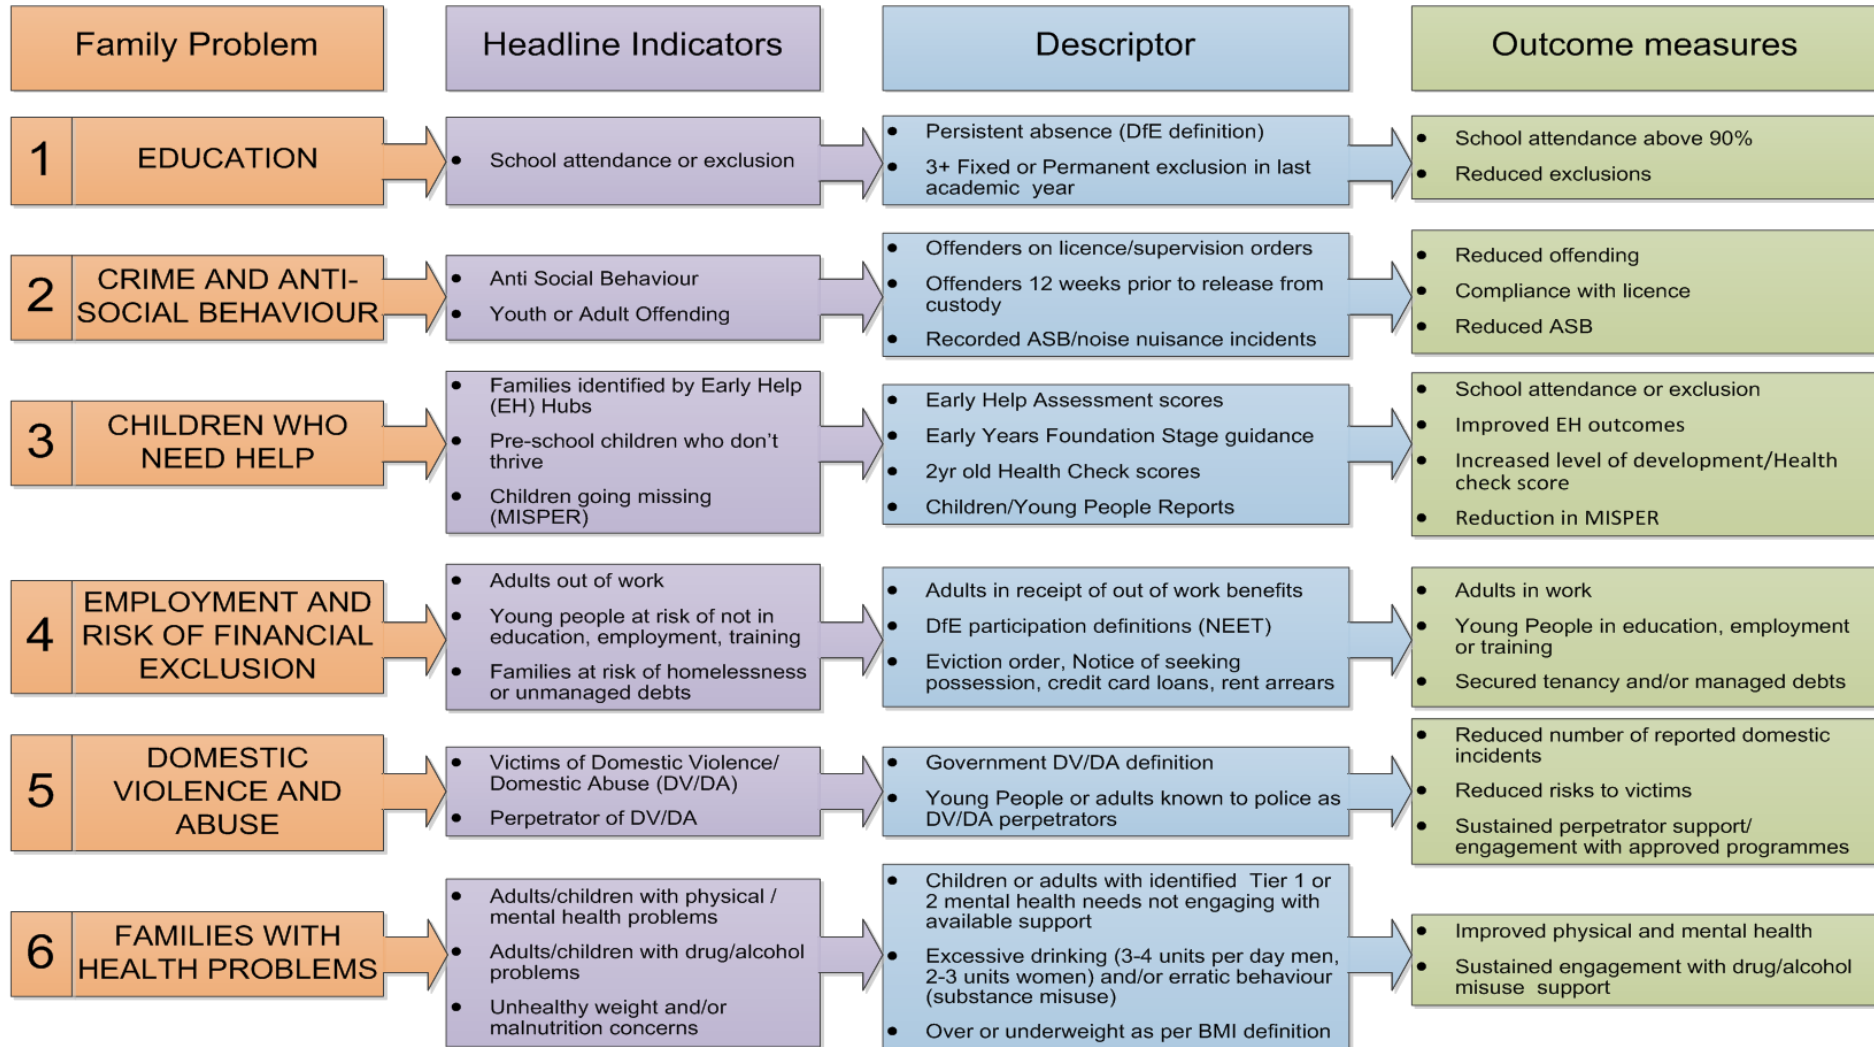

- Investment of £500,000 over 2 years
- 4 Health Trainers to support behaviour change
- 1 STFP School nurse pilot (Basingstoke) to develop further understanding of the impact a focused role can have on the identified families.
- Investment in YOT Education, Training and Employment workers to support further skills and work placements for young people.
- This enhances the universal services including
 - **School nurses**
 - **Health Visitors**

Phase 2 – Moving Closer to Health

- Strong performance has prompted DLCG to invite Hampshire to start Phase 2 three months early on 1 January 2015.
- Phase 2 widened with Health (Mental and Physical) and Domestic Violence key criteria.
- Annual target to work with 1,112 families – more than double current average of 530 families per year.
- Intensive Family Support Service (Transform) re-commissioned to support a further 250 families in 2015/16.
- Local knowledge (widened Health input) key to ensuring that we identify the right families for targeted support.
- Following consultation with key stakeholders, including Health input, a Troubled Families Outcome Plan has been developed

Hampshire's STFP Outcome Plan

Hampshire Supporting (Troubled) Families Programme
Phase 2: 1 January 2015

Key (Win/Win) issues

- Identifying families in need of support.
- Ensuring that the local health system is set up to meet families' needs promptly and effectively with other agencies.
- Working with Local Authority/other partners to develop and deliver integrated services which better address families' needs.
- Working as part of a multi-agency team, seconding health professionals into troubled families services/existing health initiatives
- Commit to improved information sharing to establish a fuller picture of each family's needs.
- Promoting the programme locally and being ready to work differently
