HAMPSHIRE FIRE & RESCUE SERVICE
Consultation on Proposed Changes to the
PLANNING FOR A SAFER HAMPSHIRE
Quality Assurance Process
Closing Date Review
04th January 2016

Dear Dan,

Further to your recent discussions with Nick Duffin in his capacity as 'Adviser' to this consultation, I have been in regular contact with him in relation to the progress made to date.

I am happy to confirm that I have now 'signed off' the Closing Date review stages of the compliance process with two conditions.

- We see a satisfactory Equalities Analysis updated once Action Hants have completed their work
- We see the final ORS output and feedback report to ensure it is sufficient.

A client is entitled to make this milestone public, should you wish to do so, but we would urge caution and suggest you discuss with the Institute the caveats you might wish to insert into any statement that mentions the *best practice* status of the consultation.

The Institute trusts that the whole consultation process will continue to meet its standards and looks forward to being able to award Hampshire Fire & Rescue Services the appropriate Certificate at the end of the exercise.

Best regards,

Elizabeth Gammell (Assessor)
Standards Director, the Consultation Institute
