## **Schools in the Western Area of Hampshire below the Government's floor standards based upon 2015 outcomes.**

The Government has set floor standards for both primary and secondary schools and has asked Local Authorities to take a robust stance towards those schools below floor to secure rapid improvement.

A primary school is deemed to be below the floor standard if less than 65% of pupils attain Level 4 in reading, writing and mathematics **and** where progress is less than the national median in reading, writing **and** mathematics. The 2015 national median progress figures at Key Stage 2 are Reading 94%, Writing 97% and Mathematics 93%.

A secondary school is deemed to be below the floor standard if less than 40% of pupils attain 5 A\*-C including English and mathematics **and** where progress is less than the national median in both English **and** mathematics. The national median figures at Key Stage 4 are English 73% and Mathematics 68%.

Schools that have chosen to opt into the new key stage 4 accountability system and floor standards will be assessed using the new 'Progress 8' measure. Other schools will continue to be assessed against the existing floor standard measures in 2015.

Under progress 8, a school will be below the floor standard if their score is below - 0.51, unless the confidence interval suggests that the school's underlying performance may not be below average. Again, this information for individual schools has yet to be published

The list of schools below the floor standard is:
