Dear Pat

Thank you for your detailed letter dated 23rd April regarding the outcomes from the Health Overview and Scrutiny Committee (HOSC) Adult Mental Health Working Group. Following the group's request for supplementary information, please see enclosed information.

I hope this goes some way to providing assurance to the HOSC that the issues raised by the HOSC Working Group are very much part of our ongoing service transition process and that we are proactively working with partners to improve access to our services and the experience of service users.

If the group has any further questions on these responses, please do not hesitate to contact me.

Kindest Regards

Yours sincerely

Katrina Percy
Chief Executive
