## Proposals - overall

### 1 Do you have any comments on the proposals for Crossrail 2 overall?

#### Overall comments:

The most recent consultation regarding Crossrail 2 is of great interest to Solent Transport who submitted a more substantial response (as Transport for South Hampshire Isle of Wight) to a previous consultation in August 2013.

As before, the Solent Transport strongly supports the regional option for Crossrail 2 and recognises that its delivery has the potential to release much needed additional capacity for up to fifteen additional South West Main Line services per hour into / out of London Waterloo (as per paragraph 3.2.5), serving origins and destinations including Solent, with Southampton and Portsmouth specifically mentioned. Through interchange with mainline services at Clapham Junction, Crossrail 2 also provides improved connectivity to an increased number of London stations for Solent residents.

Solent Transport would like to see a "regional plus" option whereby Crossrail 2 would function more similarly to Thameslink with termini further afield than Greater London such as Cambridge or Stansted to Southampton, Portsmouth or Basingstoke. This would offer faster cross-London journey opportunities without the need for changes of train.

The resulting reductions in crowding, and improved journey times that Crossrail 2 would provide are welcomed, provided that they do not result a reduction of services or frequencies to / from origins / destinations from Solent into and out of London. It is also important that disruption to main line services is minimised during construction.

(Please note that it is proposed that this response is ratified retrospectively at the Solent Transport Joint Committee on the 3 February 2016)
