

Hospital care in Hampshire

Mary Edwards
Chief Executive

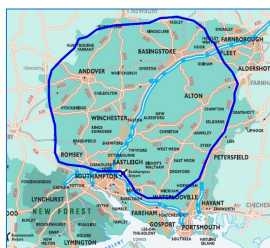

16 April 2013

Introduction

- Reminder of context
- Update
- Stakeholder engagement
- Next steps

Who do we serve?

- 600,000 people
- Rural with several urban centres
- Growth in north & south of patch

Local where possible, central where necessary

- Community clinics
- General hospitals
- Critical treatment hospital

Achievements 15 months on

- Local
 - Andover – more surgery, birthing centre
- General
 - additional beds, new OPD, MRI, CT, maternity improvements
- Central
 - stroke, cardiac, trauma
 - planning for Critical Treatment Hospital

Rationale

- Services for sickest patients need to be co-located
 - Safer for patients
 - interdependencies
- Options
 - Hot and cold sites
 - Centralise on one of existing sites
 - Small 'hot' centre in middle of patch

Preferred option

- CTH in centre of patch – 15% of sickest patients
- Majority of hospital care in Winchester and Basingstoke including ED and maternity
- More services in community locations

Stakeholder engagement

- Acute partners – UHS
- Community partners – Southern
- Ambulance – SCAS & air ambulance
- Commissioners – CCGs, LAT
- All local MPs
- Local authorities
- Public, Members and Governors
- Regulators - Monitor & CQC

Conclusion

- Refining plans, considering possible timescales
- Working with partners on approval processes
- Continuing engagement with stakeholders

Thank you
