31/01/2010	Whitefield Rd/Osbourne Rd, Station Rd New Milton	request for traffic signals	Mr Nicholson	<p>This proposal has been investigated previously. It was technically challenging, required some third party accommodation works, and was predicted to cause congestion that would make it difficult to exit the station. It had also been driven by the need to provide for pedestrians. A light controlled crossing north of the station was subsequently installed meaning some of the justification for signalling the junction has been lost.</p> <p>No plans to re-investigate.</p>	Cllr Kendal

Mr Hodgkiss	A link on the southside of Christchurch Rd is proposed as part of the New Milton and Barton on Sea NFDC Cycle Strategy. The proposal is a mixture of on carriageway (low flow slip roads) and adjacent to carriageway facilities. No justification for facility on northside.	Cllr Rice
