

Chloe

What made you want to join the Accessibility Ambassadors project?

I can relate to what they are trying to do, I enjoy being involved in equality and diversity projects and making people happy

How do you think the Accessibility Ambassadors could make a difference to children and young people?

By trying to make places accessible to anyone, not just people with additional needs because you can't leave people out. I would like to see more places guide dogs and therapy dogs can go to.

What are you looking forward to next with the Accessibility Ambassadors?

Doing my first accessibility ambassadors visit and check.
