Functional Skills Course

Are you wishing you had a maths qualification?

As adults, we forget how much of our everyday lives are based on basic maths skills. If you were unsuccessful with your GCSE Maths exams and you feel nervous at the concept of maths then Multiply have courses designed to help.

Multiply's FREE Functional skills courses are offered at levels 1 and 2 and are recognised as a GCSE equivalent. The courses are suitable for all levels and are taught by friendly, qualified tutors. The sessions can be delivered face to face or online at a time that is convenient to you. Intensive courses are also available for these levels over a 2-6 week period.

Come along and enjoy maths with others who are feeling the same way as you and overcome your fear of numbers. Courses are available for adults aged 19 and over who do not currently have a Level 2/GCSE maths at grade 4 (previously known as grade C) or for those who think it will help their career progression to go back into learning.
