

Looking after our world

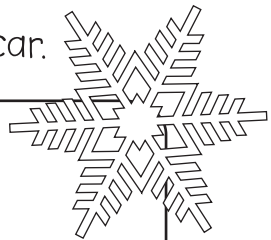

In the story Snowflakes and Icicles at Susie the childminder's house the twins arrived on a sledge.

This was a safer way to travel as the roads were icy. It is also good for our planet because cars need fuel and we must try to use less fuel so that our world can stay healthy.

Draw pictures of 4 different ways you can travel instead of using the car.

An empty rounded rectangular box for drawing a different mode of transport.An empty rounded rectangular box for drawing a different mode of transport.An empty rounded rectangular box for drawing a different mode of transport.An empty rounded rectangular box for drawing a different mode of transport.
