Dear

Central & Eastern Berkshire Authorities - Joint Minerals and Waste Plan: Additional Call for Sites

Firstly, thank you for your response to the Call for Sites consultation conducted in the spring 2017. That exercise, and the follow up assessment has allowed the Central & Eastern Berkshire Authorities to begin to work up a number of site options in order to deliver the requirements being identified through the evidence base work.

Despite the initial response, it is clear that further capacity in the form of additional land for sites will be needed and so the Central & Eastern Berkshire Authorities are now seeking additional nominations from both existing operators and new land owners alike.

In the search for additional sites, the Central & Eastern Berkshire Authorities are asking site operators and land owners to put forward any additional proposals for consideration for minerals and waste uses that **were not** nominated through the first Call for Sites consultation in the spring and **do not** constitute existing working sites/facilities.

There is no need to resubmit any sites that you have already nominated, for which we have the following:

We are looking for sites for the following minerals and waste uses;

- Soft sand or sharp sand and gravel extraction;
- Mineral railheads;
- Aggregate recycling and secondary aggregate processing facilities.
- Waste to energy facilities;
- Composting/recycling facilities;
- Waste transfer sites;

- Inert landfill (associated with quarry restoration).

All proposed sites will then be progressed through the site assessment process to identify whether they are suitable sites that meet the specified requirements within Central & Eastern Berkshire to meet demands.

In order to help us assess the sites, we require some essential background information about the site, including what the proposal is for, its location (including a map), and ownership information (including contact information if different). Additional information will then be sought through follow up communication.

Any interested party should respond by 5.00pm on **Friday 24th November 2017**. (*Please note that if you are putting forward more than one site, you will need to include the above information for each site*).

Please note that all nominations should be sent to Hampshire Services via email: iceb@hants.gov.uk or using the postal address given at the top of this letter.

Information on how the site will be assessed is set out in the Issues and Options sites methodology document: <http://documents.hants.gov.uk/planning-strategic/JCEBSiteAssessmentMethodologyFinalVersionJune2017.pdf>
