

Central & Eastern Berkshire Authorities – Joint Minerals & Waste Plan

The Central and Eastern Berkshire (CEB) Authorities (Bracknell Forest Council, Reading Borough Council, The Royal Borough of Windsor & Maidenhead and Wokingham Borough Council) are working in partnership to produce a Joint Minerals and Waste Plan which will guide minerals and waste decision making in the Plan area up until 2036.

Following the 'Draft Plan' consultation in 2018, a further 'call for site' exercise inviting site nominations was held. Bray Quarry Extension was the only site proposed. An initial assessment of the site has been undertaken and it has been concluded that it may potentially be suitable to be allocated for sand and gravel extraction.

The CEB Authorities are seeking feedback on whether the Bray Quarry Extension site should be allocated for sand and gravel extraction in the Joint Minerals and Waste Plan. The responses received will inform the Proposed Submission Plan (Regulation 19).

To find out more about this consultation, please visit www.hants.gov.uk/berksconsult. It is here that you will be able to read all accompanying documents to this site specific Regulation 18 consultation, as well as complete the response form to the consultation.

Documents are also available for inspection during normal working hours at all libraries within the Royal Borough. More details of these libraries can be found at https://www3.rbwm.gov.uk/directory/7/find_a_library.

Additionally, there will be a public exhibition held relating to the proposed site allocation of Bray Quarry extension and will provide an opportunity to ask questions or raise concerns about the proposal. This will be held at:

- **Bray Village Hall**, High Street, Bray, SL6 2AR, on 1 August 2019 from 3pm to 8:30pm

The Regulation 18 Consultation on the Bray Quarry Extension site only will run from 9 July 2019 to 5pm on 19 August 2019. There is no need to repeat previous comments made on the plan.
