

Joint Minerals and Waste Plan Proposed Main Modifications Consultation

Introduction

Local Planning Authorities have a statutory responsibility to prepare and maintain an up-to-date Local Plan. Bracknell Forest Council, Reading Borough Council, the Royal Borough of Windsor and Maidenhead and Wokingham Borough Council (collectively referred to as the 'Central & Eastern Berkshire Authorities') are working in partnership to produce a Joint Minerals and Waste Plan which will guide minerals and waste decision-making in the Plan area for the period up to 2036.

This response form allows you to provide your views on the Proposed Main Modifications to the submitted version of the Joint Minerals and Waste Plan for Central and Eastern Berkshire. Please note that comments on the other supporting documents is not required and will not be taken into consideration.

This consultation is open from 28 February until 5pm on 11 April 2022. If you have any queries, or require this form in an alternative format, please contact berks.consult@hants.gov.uk.

When you have completed this questionnaire, you can return it either by email to berks.consult@hants.gov.uk or by sending to the following postal address:

About this consultation

Privacy notice

The Strategic Planning Team at Hampshire County Council is collecting information about you on behalf of the Central & Eastern Berkshire Authorities (Bracknell Forest Council, Reading Borough Council, the Royal Borough of Windsor & Maidenhead and Wokingham Borough Council) in order to consult on Central & Eastern Berkshire Authorities' proposed minerals and waste planning policy.

We will collect your name, postal address and any other contact information you provide as well as details of your representation. A name and postal address must be provided for the comments to be accepted. Anonymous or confidential representations without the required personal information cannot be accepted. We will accept representations to consultations and use the information to draft planning policy documents. Your personal data will only be used for the purposes of preparing the Joint Minerals & Waste Plan.

The legal basis for our use of this information is compliance of a legal obligation to which the Berkshire Authorities are subject. This is in relation to the Town and County Planning Act 1990 (as amended). All representations received will be available to view publicly in accordance with the Local Government Act (1985) for the purposes of preparing planning policy documents until adoption.

Your personal information will be shared with the Central & Eastern Berkshire Authorities as well as the Secretary of State (and appointed Planning Inspectors) as part of the public examination. Your representation will be submitted through and processed by Snap Surveys acting as a processor on behalf of Hampshire County Council.

On adoption of the policy document, all representations will be removed from the website. Electronic and paper file copies of representations will be kept by the Central & Eastern Berkshire Authorities for at least three years in line with the relevant corporate retention period. All representation received will be handled and made publicly available, Strategic Planning's Privacy Statement provides more information on how we manage personal data alongside the Corporate Privacy Statement.

You have some legal rights in respect of the personal information we collect from you. Please see our website Data Protection page for further details. You can contact Hampshire County Council's Data Protection Officer at data.protection@hants.gov.uk. If you have a concern about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner's Office at <https://ico.org.uk/concerns/>.

Background

The Joint Minerals and Waste Plan will build upon the formerly adopted minerals and waste plans for the Berkshire area. It will improve, update and strengthen the policies and provide details of strategic sites that are proposed to deliver the vision.

The first stage of the consultation ran between June and July 2017 to engage the community to understand the issues for managing minerals and waste for the next 20 years. It gathered evidence to inform the options for the plan policies and site allocations and was used to prepare the Draft Joint Minerals and Waste Plan. The Draft Plan was subject to consultation between August and October in 2018. Two further Regulation 18 Consultations were carried out following the Draft Plan consultation and they related to specific issues. The first (June to August 2019) was a site-specific consultation on the Bray Quarry Extension site. The following consultation took place in February / March 2020, and included two nominated sites, an Area of Search approach and a newly proposed Policy (DM15).

The Proposed Submission Plan consultation, ran between September and October 2020. Following this consultation, the Submission Plan, the evidence base and all representations received were submitted to the Secretary of State for independent examination.

The examination hearings were held at the Royal Borough of Windsor and Maidenhead Offices between 28th and 30th September 2021, with a further reserve hearing taking place online on 12th October 2021.

The Joint Minerals and Waste Plan Proposed Submission Plan document can be downloaded from www.hants.gov.uk/berksconsult. It is recommended that you refer to this document as you respond to this consultation.

We would like to hear from you in respect of your views on the 'soundness' and legal compliance of the Proposed Main Modifications. For definitions of the Tests of Soundness, please refer to page four of the Joint Minerals and Waste Plan Submission Plan document which can be found by visiting www.hants.gov.uk/berksconsult.

we strongly object to the developement of the compound. this compound is adjacent to residential property and on green belt land. Stubbings is a well respected area of high status and calibre. Placing a dumping ground with devalue the area. It is renknown for its National Land and beautiful walkways and county nature. Placing a dumping ground will have a negative effect. WE DO NOT WISH FOR THE SITE TO HAVE A DUMPING COMPOUND. THIS WILL CAUSE THE VALUE OF [REDACTED] PROPERTIES TO DEFLATE. IT WILL INCREASE NOICE, SMELL, TRAFFIC IN A VERY QUITET RESIDENTIAL STREET AND A SMALL HAMLET. [REDACTED] KNOWING IT WAS GREEN BELT LAND AND THAT IT WOULD REMAIN WITH AN UNCHANGED LANDSCAPE.
