Dear Sir or Madam

Central and Eastern Berkshire Joint Minerals & Waste Plan Proposed Submission Plan, September 2020

Thank you for inviting Historic England to comment on the above document. In line with our remit, and the stage of the plan consultation, our comments are limited to matters relating to the historic environment, in respect of soundness and legal compliance.

We do not wish to object to the plan on the basis of soundness or legal compliance.

Historic England has been consulted at the relevant plan-making stages and we consider that the representations we made have been duly considered by the councils.

Historic England did raise some concerns regarding both sites and policies that were consulted upon as part of earlier iterations of the plan. However, the concerns we raised have either been addressed through modifications to policies, the submission of further evidence, or the sites in question no longer form part of the plan.

Yours faithfully

Edward Winter

Historic Environment Planning Adviser
