Subject: FW: Minerals & Waste

Dear Stewart

I am just going through the Colne Valley Regional Park's response to the Central and Eastern Berkshire Authorities Joint Minerals and Waste Plan Regulation 19 Proposed Submission Plan Consultation and I wonder if you might be able to clarify the following couple of queries for me, please.

1. On page 11 of your response form (attached) for the sub section 'key diagram' you have ticked the box to suggest you object to the key diagram. However, you also have the following text in the free text box for explaining your reasons for supporting the key diagram:
"we object in so far as the key diagram identifies sites to which we object – as set out in our supporting statement and as highlighted elsewhere in this document."
Could you confirm whether you would like it recorded that you (CVRP) object or support the key diagram, please.
2. You have answered *"See attached statement from the Colne Valley Regional Park to support and elaborate on what we include in this this document."* to some questions throughout your response form (attached). Whilst I have managed to find direct references in your accompanying supporting statement to most areas / sections of the consultation, I cannot find direct references in the accompanying supporting statement to the sections / documents listed below. Therefore, please could you confirm whether there are specific references to these sections / documents in the accompanying supporting statement, or whether the CVRP response as a whole is in reference / has given consideration to these particular sections / documents generally.

Comments on the Introduction (page 4 of the attached response form)
Comments on the Background & Context (page 4 of the attached response form)
Comments on Minerals Background Study (page 114 of the attached response form)
Comments on Waste Background Study (page 114 of the attached response form)
Comments on Heritage Statement (page 117 of the attached response form)
Comments on Minerals and Waste Safeguarding Study (page 117 of the attached response form)
Comments on Minerals Proposals Study (page 118 of the attached response form)
Comments on Policies Map (page 119 of the attached response form)

Many thanks,

Tasha

Tasha Webb
Minerals and Waste Policy Officer
