Q308:2 If you are objecting to the policy on the grounds that it does not meet the test of soundness, what test of soundness do you consider that it fails (select all that apply) - The justification test

The justification test

Q309 If you are objecting to the policy on the grounds that it does not meet the test of soundness, please include below your comments on how the policy does not meet the test of soundness

The area is a tiny rural area were people live, the roads are narrow and very windy and twisty. The pathway is narrow which would prove a great danger to people on the path with prams or in wheelchairs. The area is also a flood risk, the population of people living there are elderly and public transport is not brilliant and most of them walk. All the business around there are small family run and have been there for many years.

Q504

There are 15 documents included in the Plan's evidence base, as well as a Policies Map, all of which can be found listed in Appendix D (page 185) of the Proposed Submission Plan document. What are your comments on the Waste: Proposal Study?

**Answer**

To withdraw this site from the potential suitable site list. The site does not meet the criteria for appropriate locations to the effect that the traffic and access has not been properly assessed, there is no good transport infrastructure . Detrimental impact to people who live on or next to the site. Destruction of the small business that operate there. Damaging vital rural economy. The area is one of the last nice places left in the small village
