Bishops Waltham

Have you identified any medium or high impact?*

Yes

No

As an expansion to an existing school the works should enhance the existing services therefore having a positive impact the local community. The expansion will generate additional learning places for school age pupils. The expansion will give positive connectivity for disabled student to access the whole school via internal corridors or external canopy links. The expansion provides a new accessible toilet for disabled

students.

In order to excute the works whilst the school is occupied there will be the potential for minimal distrubtion to pupils, teachers, parents and local residents for a short period.
