

## Harts Farm Way/Southmoor Lane Junction Havant

Accountable officer: Adam Bunce  
Email address: charlotte.parfitt@hants.gov.uk  
Department: Economy, Transport and  
Environment  
Date of  
assessment: 01/08/2018

### Description of current service/policy

The Harts Farm Way/Southmoor Lane roundabout serves as access to the Broadmarsh employment area and experiences evening peak hour congestion due to the numbers of employees departing at 5.00pm. Realigning the roundabout should slow approaching traffic and ensure drivers take the appropriate route on the roundabout, which could allow more traffic to enter the roundabout from the Southmoor Lane approach in the evening peak.

Geographical impact: Havant

### Description of proposed change

The scheme involves the introduction of a kerbed central island and kerbed islands on all approaches to the roundabout and revised footway alignments on the approaches. There will be flared entries at the roundabout for all arms. The existing mini roundabout will be replaced with a physical kerbed roundabout.

The kerb line will be moved back into the eastern verge of Southmoor lane, and two northbound lanes will be provided on Southmoor lane to create greater capacity at the junction. A new pedestrian refuge will be provided on Brookside road, and additional on and off-road cycle facilities on the Brookside road approach. The scheme will involve resurfacing the road.

### Impacts of the proposed change

This impact assessment covers Service users

### Engagement and consultation

Has engagement or consultation been carried out? Yes

Meeting held with the local member to discuss scheme proposals and impact. Consultation with Borough Councillors who are all supportive of proposals. Local businesses have been consulted and are supportive of proposals with the benefits at peak traffic periods.
