

Equality Impact Assessment

What is an Equality Impact Assessment (EIA) and why does the County Council do them?

The [Public Sector Equality Duty](#) (PSED) is an obligation within the [Equality Act 2010](#) ("the Act"), which asks public authorities, like Hampshire County Council, to give 'due regard' to equality considerations, in particular to:

- Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act.
- Advance equality of opportunity between people who share a protected characteristic and those who do not.
- Foster good relations between people who share a protected characteristic and those who do not.

This includes assessing the impact of policies and practices on individuals and communities with a protected characteristic, as defined in the Act and some other specific groups. The County Council uses EIAs to ensure it has paid 'due regard' to equalities considerations when there are changes to a service or policy, a new project or certain decisions.

Overview Statement:

Assessment to show that due regard has been given and that there is no requirement for a full EIA:

The decision sought will not reduce the scope of the service provided or have any impact on the individuals working on the service or service users, so has been assessed as having a neutral impact on groups with protected characteristics. Approval is sought for service adjustments to accommodate and address current pressures and is not anticipated that these proposals will have a direct impact on people with protected characteristics. Rather they are intended to maintain service delivery to all highway users and help maintain and/or approve highway safety.
