Rurality: Neutral		

Neutrality statement (if all considerations have a neutral impact)

This is an update on contract negotiations.

Any other information

As reported to the Executive Member for Economy, Transport and Environment Decision Day on 10 March 2020, this project is anticipated to have a neutral impact on groups with protected characteristics as the lighting will not change other than to replace 12,000 approx. (of 32,500 approx.) high pressure sodium street lights with equivalent LEDs. This particular report concerns contract negotiations and so is not expected to have any direct impact on residents. Final implementation of the project proposal will be subject to further assessment.
