

Local Industrial Strategies

Accountable officer: David Fletcher

Email address: david.fletcher@hants.gov.uk

Department: Economy, Transport and
Environment

Date of
assessment: 10/04/2019

Description of current service/policy

Local Enterprise Partnerships were established by Central Government in 2011, to lead on economic development of their respective areas. They are partnerships including local authorities, business and other key public and private sector stakeholders. Two LEPs cover the geography of Hampshire, Solent LEP and Enterprise M3 LEP.

Geographical impact: All
Hampshire

Description of proposed change

All Local Enterprise Partnerships are required by Government to develop local industrial strategies which are to be completed by Spring 2020. These strategies are to set out how each LEP area will contribute to improvements to UK productivity. This report sets out the basis on which Hampshire County Council will engage in the process of the development of the local industrial strategies for both Enterprise M3 and Solent LEPs, and the key economic priorities which we wish to promote in those strategies.

Impacts of the proposed change

This impact assessment covers Service users

Engagement and consultation

Has engagement or consultation been carried out?

No

LEPs will consult various local stakeholder groups in the development of their local industrial strategies.

Statutory considerations	Impact	Mitigation
Age: Neutral		
Disability: Neutral		
Sexual orientation: Neutral		
Race: Neutral		
Religion and belief: Neutral		
Gender reassignment: Neutral		
Gender: Neutral		

Marriage and civil partnership: Neutral		
Pregnancy and maternity: Neutral		
Other policy considerations	Impact	Mitigation
Poverty: Positive	As the local industrial strategies are intended to drive economic growth within the LEP areas and across Hampshire, it is anticipated that they will have a positive impact in terms of reducing poverty levels in Hampshire.	
Rurality: Neutral		

Neutrality statement (if all considerations have a neutral impact)
