

Wraparound Inclusion Grant

This document provides guidance to those completing the Wraparound Inclusion Grant application.

Full details of the what the Wraparound Inclusion Grant is, who can apply, and information about Ordinarily Available Provision can be found here: [link to Comms](#)

The link to access the application form can be found here: [link to form](#)

Things you need to know

This form gathers information about your setting which we will use to inform our Childcare Sufficiency Assessment. See more [here](#).

If your setting cares for children from more than one school, you will be asked for details of each school within the form.

If your business runs wraparound care at more than one setting, you must complete one form per setting. You will be asked for your organisation name and business address. All other answers must relate to one specific setting.

If you are an EYE provider receiving EYE inclusion funding, you can also apply for this grant for any primary school aged wraparound care you provide.

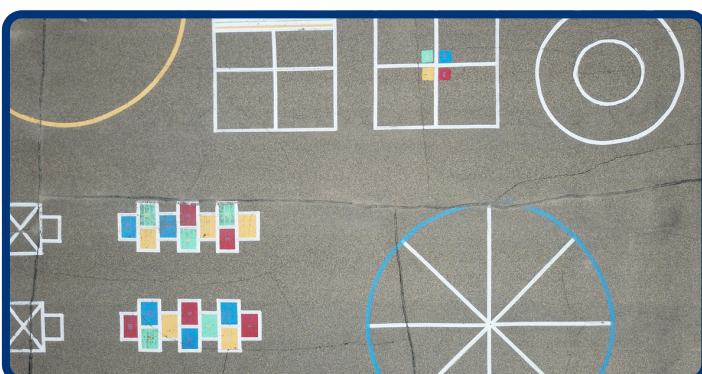

Base your responses on a typical week in the Autumn 2026 term.

Where you provide care as part of the DfE's Free Breakfast Club scheme, please only answer for your paid-for care.

Although the grant is open to school-aged term time wraparound carers only, you will be asked questions about any holiday care you provide. This is to inform our Childcare Sufficiency Assessment. Please answer in relation to the most recent holiday care you have provided (within the last academic year).

If you provide care in the school holidays, please include any HAF funded places within your total numbers of children

Successful applicants will be required to sign and adhere to a grant agreement. You can read the grant agreement [here](#).

Ordinarily Available Provision Self-Evaluation Exercise

This exercise intends to help you assess your settings readiness to provide an inclusive environment for all children in your care. You are required to complete this exercise as part of any agreed grant agreement. Your answers will be used as a comparative reflection tool only. Answers will not be connected to the amount of funding awarded. We will use the answers to inform the support offer plans we provide wraparound settings.

Further information can be found [here](#) and [here](#).

If you have any questions or need any support with completing the application form, please submit a [General Enquiry Form](#).
