

Hampshire 2050 Summit Poll

The Summit provided partners with the opportunity to a light touch re-validation exercise of the Hampshire 2050 Vision and endorse the changes proposed to the original drivers, policy statements and recommendations.

The Summit was designed around the four drivers for change - changing climate, changing environment, changing economy, and changing population and society. Workshops and polling enabled partners to consider what their strategic priorities for collective action would be for each of these drivers and how they could work together achieve them.

Below are the results of the polling.

Table of contents

Summit Poll 1: Do you agree with the revalidated Hampshire 2050 Vision as a basis for Partnership Action?

Summit Poll 2: Which one of these Changing Climate Driver Partnership actions would you rank as top priority?

Summit Poll 2: Which one of these Changing Environment Driver Partnership actions would you rank as top priority?

Summit Poll 2: Which one of these Changing Economy Driver Partnership actions would you rank as top priority?

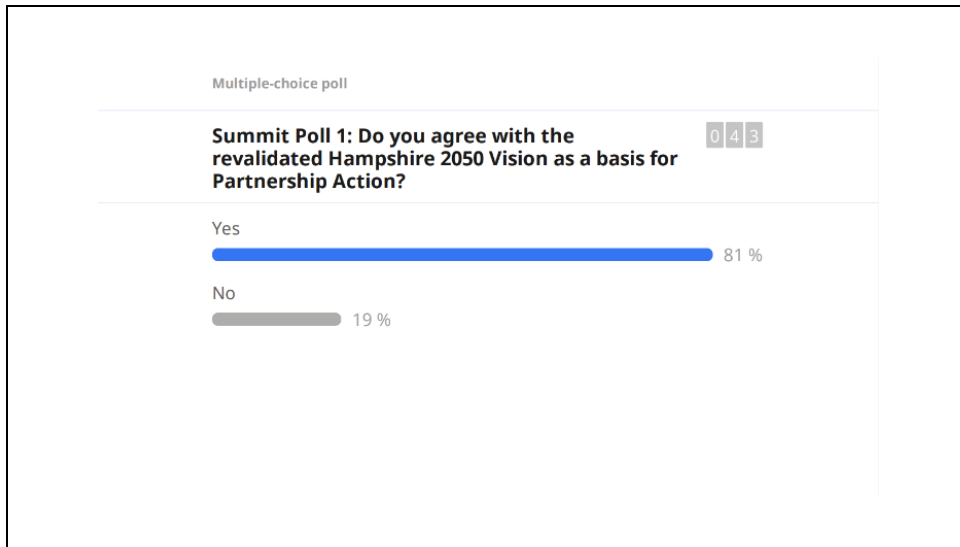

Summit Poll 2: Which one of these Changing Population & Society Driver Partnership actions would you rank as top priority?

Summit Poll 3: If you had to order these four driver priorities even further for Partnership delivery, how would you rank them 1-4?

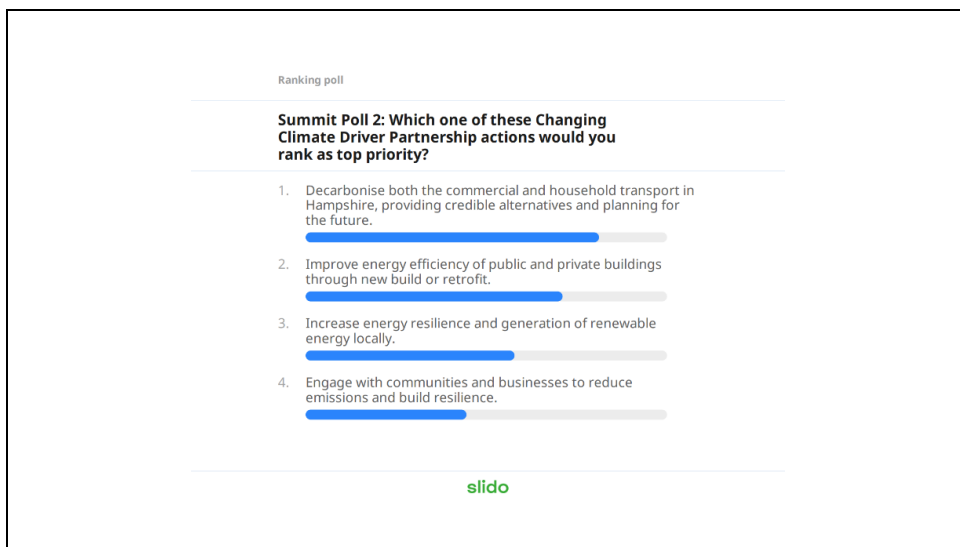

Summit Poll 4: Did the Summit achieve its outcomes?

Summit Poll 4: How confident do you feel about the Partnership taking joint action in the strategic priorities during 2024? Use one word to describe.
