IMPORTANT INFORMATION REGARDING HIGHWAY WORKS IN YOUR ROAD

H761 – Woolston Road, Calshot Road & Swanmore Road, Havant - Carriageway Resurfacing Works

As part of Hampshire County Council's annual Planned Maintenance programme, carriageway resurfacing will be carried out in Woolston Road, Calshot Road and Swanmore Road.

The works are scheduled to begin on 18th August 2026 and are expected to take 9 days, with **each of the roads closed in phases to through traffic for 24hrs each day**. The roads will be open over the weekends.

For your safety and that of the workforce, we cannot guarantee vehicle access to properties during the closure.

Where works are not taking place directly outside your property, access will be maintained wherever it is safe and practicable to do so. If you need to make an essential journey, please allow extra time and speak to a member of the on-site team in advance, who will be happy to assist. Pedestrian access will be maintained at all times.

As a resident/business, due to the close proximity of your property to the works, you are within an area which may experience some noise disturbance overnight. We are aware of the issues created by night working and will endeavour to keep noise levels reduced whenever possible.

Please note that works may be postponed at short notice due to adverse weather or unforeseen circumstances. **Where possible, significant updates to the schedule will be provided on this page.**

We thank you for your co-operation.

Director of Universal Services
Patrick Blogg

If you ever need to report a problem with the roads

You can do so by visiting www.hants.gov.uk/roadproblems and then clicking on 'Find out more' on the 'Roadworks or road closure issues' square.

FOR FURTHER INFORMATION AND FREQUENTLY ASKED QUESTION ON HOW THE ROAD CLOSURE MAY AFFECT YOU, PLEASE SEE BELOW.**Will I have access to my property during a road closure?**

During the works, vehicular access will not be possible when surfacing operations are taking place directly outside or near your property. This is because the works involve very hot asphalt, liquid bitumen and large construction machinery, making it unsafe for vehicles to pass through the work area.

Once the surfacing works have moved beyond your property and the newly laid material has cooled sufficiently, vehicle access will be restored as soon as it is safe to do so. We apologise for any inconvenience and appreciate your patience while these essential improvements are carried out.

Pedestrian access will be maintained via footways, although we ask you to listen to directions from the traffic management operatives who will guide you via the safest route.

Will I have access to my business during the road closure?

Businesses are encouraged to advise staff and customers to park nearby and use pedestrian access where possible. If your business is located within the work limits, please note that vehicular access cannot be guaranteed during working hours, so alternative arrangements should be made.

Will Emergency Vehicles have access during the works?

Access for emergency vehicles will be maintained. If an emergency vehicle requires urgent entry the work will be paused immediately, and the vehicle will be escorted through the works area, if safe to do so.

Where can I park when the road is closed?

If you usually park on the road within the work area, please make alternative arrangements during the closure hours. Off-road parking will remain available; however, we cannot guarantee vehicle access in or out during working hours. **Please be aware any vehicles left parked on the road that prevent the works taking place, face the risk of being removed.**

Parking on or off-road within the wider road closure area (beyond the work limits) should generally be possible if traffic regulation orders allow, but please check with site operatives for confirmation.

What happens if the duration of the works change?

Occasionally, adverse weather or operational site issues may cause delays or extend the duration of the works. Any significant changes to the scheduled dates

will be updated on the “Planned Works” section of the Hampshire County Council website [Planned Maintenance](#).

What if I have a home delivery arranged?

Delivery drivers will have to follow the same restrictions as residents; they will have the option to park nearby and use pedestrian access to complete their deliveries. To minimise disruption, please consider rescheduling any deliveries for after the works are finished or outside the road closure hours.

What I have a disability and need vehicle access to my property?

Please visit our [General enquiry](#) page to provide your details so that a member of our team can contact you and discuss your concerns further. If work is already underway, please speak to our site operatives and explain your circumstances, they will do everything possible to assist you.

Will the buses be affected?

If any bus stops fall within the closure area, we will inform the relevant bus operators in advance. They will arrange temporary stops and alternative routes as required. Alternatively, you can also contact your bus operator directly for further details.

Will my rubbish and recycling bins still be emptied?

We will notify your refuse collection service in advance of the works so they can make alternative arrangements. For further details, you may also contact your waste collection provider directly.

What if I have a Hospital, Doctor or Dentist appointment?

If possible, please try to arrange your appointment for a time when work is not taking place. We appreciate this isn't always practical, and appointments cannot always be moved.

If your appointment **cannot be changed**, please use our [General enquiry](#) page to provide your details so that a member of our team can contact you and discuss your arrangements further. If work is already underway, please speak to our site operatives and explain your circumstances, they will do everything possible to assist you.
