

Tell home about your School Travel Plan ideas

I hope you enjoyed reading "Travelling back in time to school". Sanjay helped the children to think about their School Travel Plan which was trying to get children out of cars and either walking, scooting or cycling to school. Susie and Nanny Dot's idea to make it safer on the school run was for parents to park further away and walk the last 5-10 minutes to school. We call this "Park and Stride".

Why not write a letter to your grown-ups at home to explain about "Park and Stride" and any ideas you have to suggest for your School Travel Plan? Perhaps you can then help to make your school run safer too?

Handwriting lines for writing a letter.
