Your full name	██████████
Your position in the organisation or group	Planning Specialist
Contact email address	████████████████████████████████████████
Main Modification 11 comments	In our Regulation 19 response we made comments regarding the policy wording of Policy 8, in relation to the requirements for hydrological/hydrogeological risk assessment. We are pleased that the policy text has now been amended. We support this change, it sets out a much clearer expectation within the actual policy wording of what is required.
Main Modification 43 comments	In our Regulation 19 response we made representation regarding the restoration section of the Purple Haze allocation within Appendix A. We are pleased to see that the reference to landfill has been removed and that site-won material must be used for restoration. We are therefore supportive of this modification.
