

HMWP Partial Update Proposed Modifications Consultation Response

Main, Additional, and/or Policies Map Modification(s) that you are responding to:

Hampshire Minerals and Waste Plan: Partial Update - Submission Plan

Hampshire Mineral and Waste Plan 2024 – Regulation 24 Consultation

1. Do you consider this/these modification(s):

Legally compliant (prepared in accordance with legislation) Yes No

Sound (fit for purpose) Yes No

2. If you do or do not consider the above modification(s) to be legally compliant and/or sound, please explain your reasons for this:

Midgham Farm Site overview– Page 195 of revised Plan

I do not believe that the modification(s) are legally compliant or sound for the following reasons:

1. The roads around the immediate are of Harbridge Drove and the B3081 are NOT suitable routes for HGV traffic.
2. I believe the Transport Assessment should assess the suitability of the route effectively. The safety of other road users (walkers, cyclists and horse riders) must be taken into account on Hillbury Road and Harbridge Drove (due to the lack of footpath).
3. The priority junction should not be for mineral traffic movements onto Hillbury Road. Significant protection and enhancement of rights of way is required (Fordingbridge footpath 090/8a, Fordingbridge footpath 090/2, Fordingbridge footpath 090/3) and connectivity to the wider network.
4. The significant adverse impact on the integrity of the Avon Valley SPA/Ramsar, River Avon SAC, Dorset Heaths SAC and the Dorset Heathlands SPA/Ramsar*.
5. The significant adverse impact on the offsite roosting, foraging and breeding areas of the qualifying bird species of nearby SPAs/Ramsars, and on their functional linkage.
6. The impacts excessive dust, noise and lighting that will result from the mineral working for residents and nature.
