Subscriptions for **HPLS membership** can be deducted from your Hantspol pension and is still only £3 a month, which you should easily get back by using just a few of our benefits. Most members will save a great deal more. HPLS has nearly 5,000 members and really is completely different from what you may remember of the old Sports and Social Club. If you were a member before you retired, membership would have stopped, so join up again now with just an email to us or use the form on the website. Want to chat about this? Just call us in the office at Netley and we can help you (see below contact details)

You can also join the **Force Lottery** now paying out on average £12,000 every month in fortnightly draws including seasonal bumper jackpots. We have retired winners almost every draw now including the jackpot, runners up and bronze prizes. You really do have to be in it to win it!

Membership of the **Force Lottery** starts at only 92p per week for 16 chances every fortnight and again can be deducted from pension. No need to check your numbers, we do it for you and let you know you've won.
