Subject: Joint Minerals & Waste Plan Issues and Options Consultation 2017

Dear Sir / Madam,

I write in reference to the above consultation on behalf on my client, Farmglade Limited.

At this early stage in the plan process, Farmglade does not wish to make any detailed comments upon the emerging Joint Minerals & Waste Plan. However, as the plan develops and the Council considers making draft allocations, either for mineral extraction or waste disposal, Farmglade would request that any sites identified are thoroughly considered in respect of their specific constraints, most notably in terms of their impact upon nearby residential uses, including adjacent or nearby sites benefitting from planning permission for residential development, but not yet implemented.

I trust this is clear but if you require any further information, please contact me.

I would be grateful if you could confirm receipt.

Kind regards

Oliver Bell
