Hampshire’s Communal Establishment Residents

In 2011 Hampshire had 35,000 Communal Establishment residents.

These were resident in:

- Medical Care Establishments (14,000) 40.0%
- Other Establishments (20,850) 59.6%
- Not Stated (160) 0.4%

Medical Care:
- NHS 420
- Local Authority 1,330
- Registered Social Landlord/Housing Association 120
- Other Medical 12,130
  - Care Homes 11,740
  - Mental Health Unit 160
  - Children’s Home 40
  - Other 190

Other Communal Establishments:
- Defence 3,780
- Prison 520
- Education 14,650
- Other 1,900
  - Hotel, B&B, Youth Hostel 660
  - Religious 80
  - Other 1160
Ethnicity: White British individuals accounted for the majority of Hampshire's communal establishment population at 82.4%, followed by Asian (6.7%) and Other White (5.6%).

Population by Age and Sex: There were distinct bulges at ages “16 to 24” as a result of Hampshire’s University populations and also for those aged 75 and over as of residential care establishments.
General Health: Self defined Bad/Very Bad Health was prominent in the elderly communal establishment population.

Very Good/Good Health
- Age 0-15 (96.2%)
- Age 15-64 (87.8%)
- Age 65+ (16.4%)

Fair Health
- Age 0-15 (3.4%)
- Age 15-64 (8.9%)
- Age 65+ (46.9%)

Bad/Very Bad Health
- Age 0-15 (0.5%)
- Age 15-64 (3.3%)
- Age 65+ (36.7%)

Disability: 76.4% of the communal establishment population aged 65 and over state their daily activities were limited “A LOT”.

Daily Activities:
- Limited “A Lot”
- Limited “A Little”
- “NOT” limited

0% to 100%
Economic Activity (aged 16 and over): The categories of “Retired” and “Student” accounted for the largest share of the communal establishment population. This follows the trends in the age structure as described above with large student and elderly populations.

The data in this report refers to Hampshire – this should be understood as the combined area of Hampshire County, Portsmouth and Southampton.

The 2011 Census removes staff or owners of communal establishments/ their family members when analysing the data on health and disability by age. As a result the overall number of communal establishment residents reduces by 2,130 individuals to a total of 32,870 for these two analyses.

All the data in this report refers to the 2001 and 2011 Censuses, for more information please contact the Demography Team:
