

Countryside Access Team 2021 Vegetation Cutting Programme

To manage seasonal vegetation cutting on public rights of way, Hampshire County Council produces an annual list of the paths which are considered the highest priority to be cut.

The following pages list the routes scheduled to be cut in 2021. These are paths that are most regularly reported to the County Council as overgrown.

Please note that this is a guide only and there may be variations due to workloads, weather conditions or other unforeseen circumstances.

How do I find out where the listed paths are?

- To find out the name and number or location of a path you are interested in you can search using our [interactive map](#).

What about the routes not listed?

- There may also be other routes not on this list which are maintained by our Ranger Teams.

Reviewing the vegetation cutting programme

- We will review the cutting lists after the cutting season, taking into account feedback and any reports received. Comments from Parish Councils relating to potential changes to future cutting programmes will be welcomed at this time.

For further information on access to the countryside including responsibilities for the management of rights of way and how we prioritise our work please visit www.hants.gov.uk/rightsofway
