Law

Health Act 2006 Smoke Free (Premises & enforcement) Regulation

A person who smokes in an 'enclosed' or 'substantially enclosed' public place is committing an offence.

Scenario

A person lights up in a coffee shop in a shopping mall.

Consequence

Any person who smokes in an 'enclosed' or 'substantially enclosed' public place can receive a £50 fixed penalty notice. Those in charge of the premises could face a fine of up to £2500 for failing to stop them.

Law

Smoking in Cars and Other Vehicles 2015

It is illegal to smoke in a private vehicle that is carrying someone under 18 or for the driver not to stop a passenger lighting up.

Scenario

A mother lights a cigarette on the school run with her 15 year old son in the passenger seat.

Consequence

The fixed penalty notice fine for both offences is £50. Somebody who commits both offences can get 2 fines. Private vehicles must be carrying more than one person to be smoke free, so somebody who is 17 and smoking alone in a private vehicle isn't committing an offence. Police will use their discretion to decide whether to issue a warning or a fixed penalty notice, or whether to refer an offence to court
