Street Works Newsletter

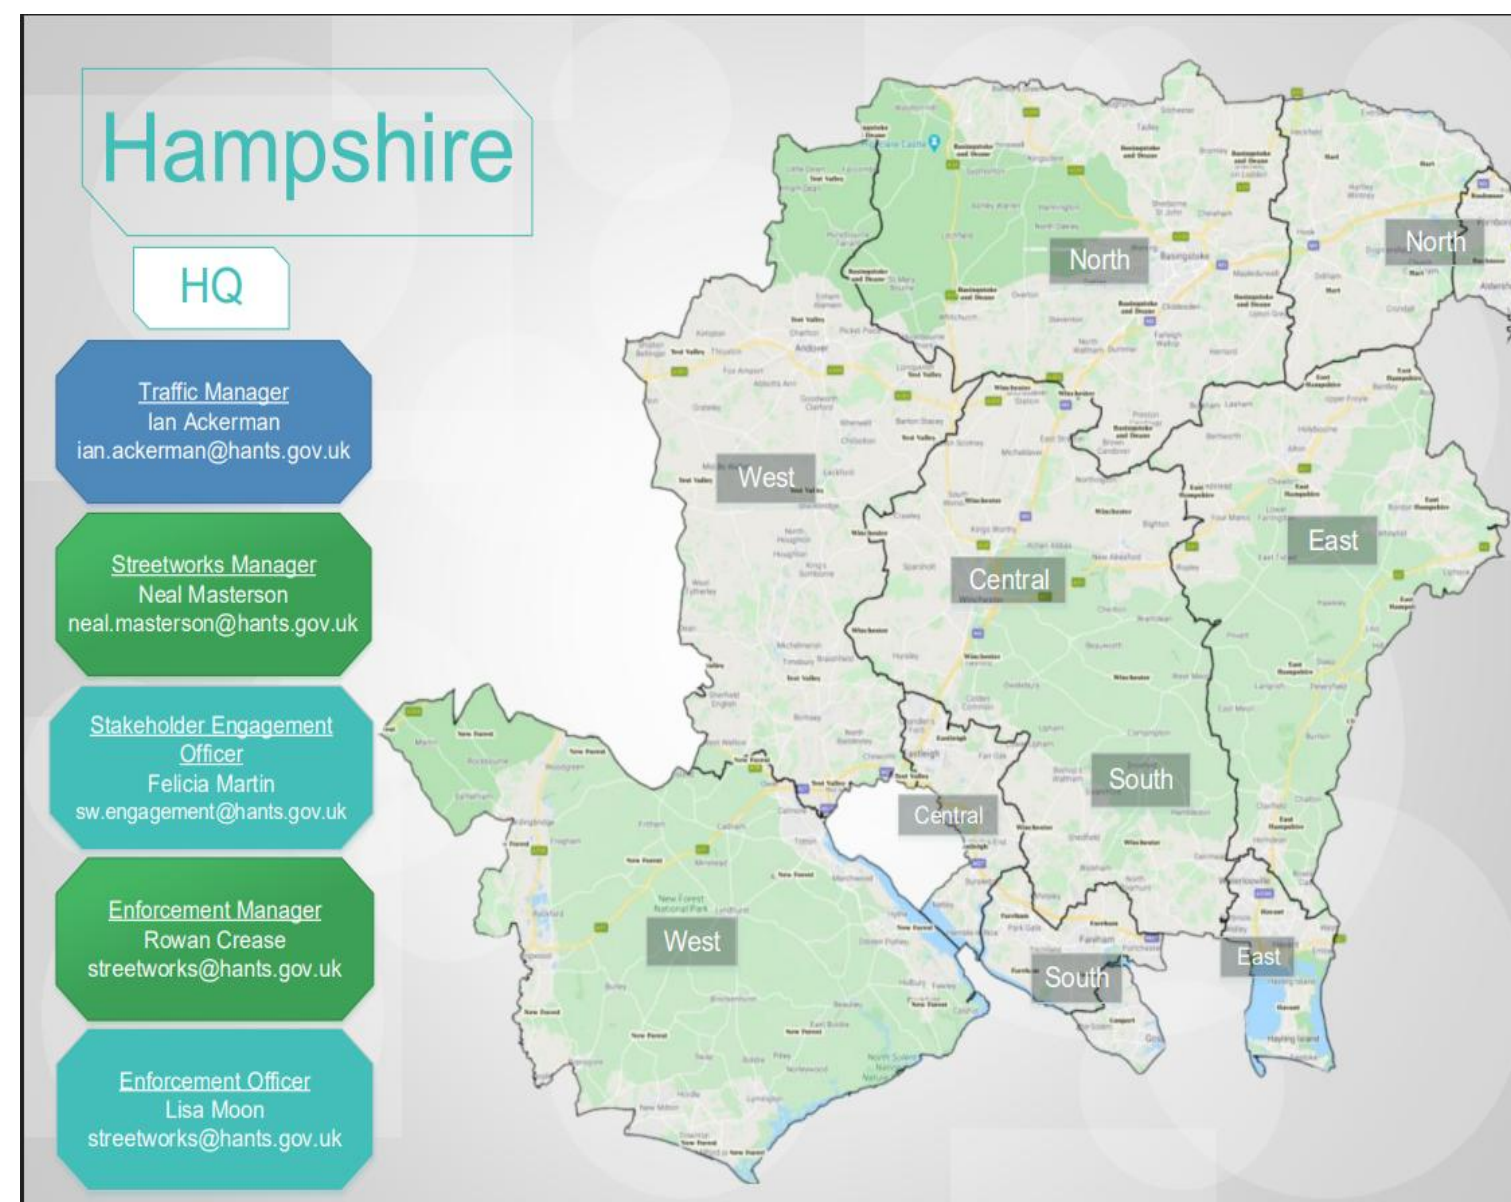

February 2026

Coordination Newsletter – February 2026

Welcome to the February 2026 edition of the Hampshire County Council Street Works Newsletter. The purpose of this newsletter is to keep stakeholders informed about major projects and operational update. It is not intended to provide advance notice of all significant works, as this is already accessible through other platforms.

The Street Works Team

Hampshire Street Works is split by area. Please click on the map to access the contacts for the team. This map is hosted online and is maintained with the latest contact details.

The works mentioned in this newsletter have also been plotted on a map. Please click on the map to view.

If you would like to submit information for inclusion in our next newsletter, please email sw.engagement@hants.gov.uk.

Reminders

🔥 **Hot topics:** these are the subjects that generate complaints from members of the public and Councillors. 🔥

Verges: we suggest taking photographs of verges before you start work to document any existing damage. You should also take photographs once site is cleared to show the condition of grassed areas after you leave. Please ensure that any damage caused to verges/grassed areas as a result of your work is made good before you leave.

Use of 15-minute road closures: please only use at sensible times

Working hours: please ensure all contractors and operatives are aware of permit conditions. We are seeing an increase in evening and night works in residential areas in breach of permit conditions.

Environmental Health: if you are planning to work in a residential area at night for more than one night, you must alert the local EH team.

Manual Control: the purpose of manual control is to control the traffic flow. Please ensure that the operative in charge is aware of any priorities at different times of the day.

Blocked Driveways: please consider notifying residents before blocking driveways.

Diversions: please remember that the shortest route is not always the best. We have seen an increase in wholly unsuitable diversions being selected, leading to damage to the highway, incidents involving the police, and irate members of the public. When applying for a TTRO, the applicant must confirm that a risk assessment has been carried out – please ensure that this is the case for all signed alternative routes.

Bus Stops: please remember to suspend bus stops if they will not be accessible due to your works.

Gentle reminder: please be careful not to include any of the streetworks named people in the permit information that will be displayed publicly on Causeway one.network

And: Please note that, where possible, works should be avoided in the New Forest during the school holiday periods.

New Forest Tourism Restriction – works with long-duration positive TM on A, B and C roads in the New Forest near tourist attractions, shopping areas, or caravan/campsites **may be restricted from Easter to end of September.** Consult the coordination team before submitting permits.

Major Projects:

M27 Junction 10

January 2026 Update

We are pleased to announce that the M27 between Junctions 9 and 11 has reopened 24 hours ahead of schedule **on Saturday 3 January.**

The motorway was closed since Christmas Eve to enable the construction of improvements to Junction 10 using an innovative 'box slide' technique that has only been deployed in the UK a handful of times. This innovative, time saving approach replaced what would otherwise have been many months of lane and speed restrictions, as well as overnight works – and it will enable the motorway to reopen earlier than originally planned. Over the closure period, around 130 people have been working in total around 10,000 hours, day and night to get the job done safely and efficiently. The M27 had originally been scheduled to reopen at 4am on Sunday 4 January.

Photo from January 2026

Botley Bypass

Please see information in the link for the works on the **Botley Bypass**:

[Botley Bypass | Transport and roads | Hampshire County Council](https://one.network/?GB142877454)

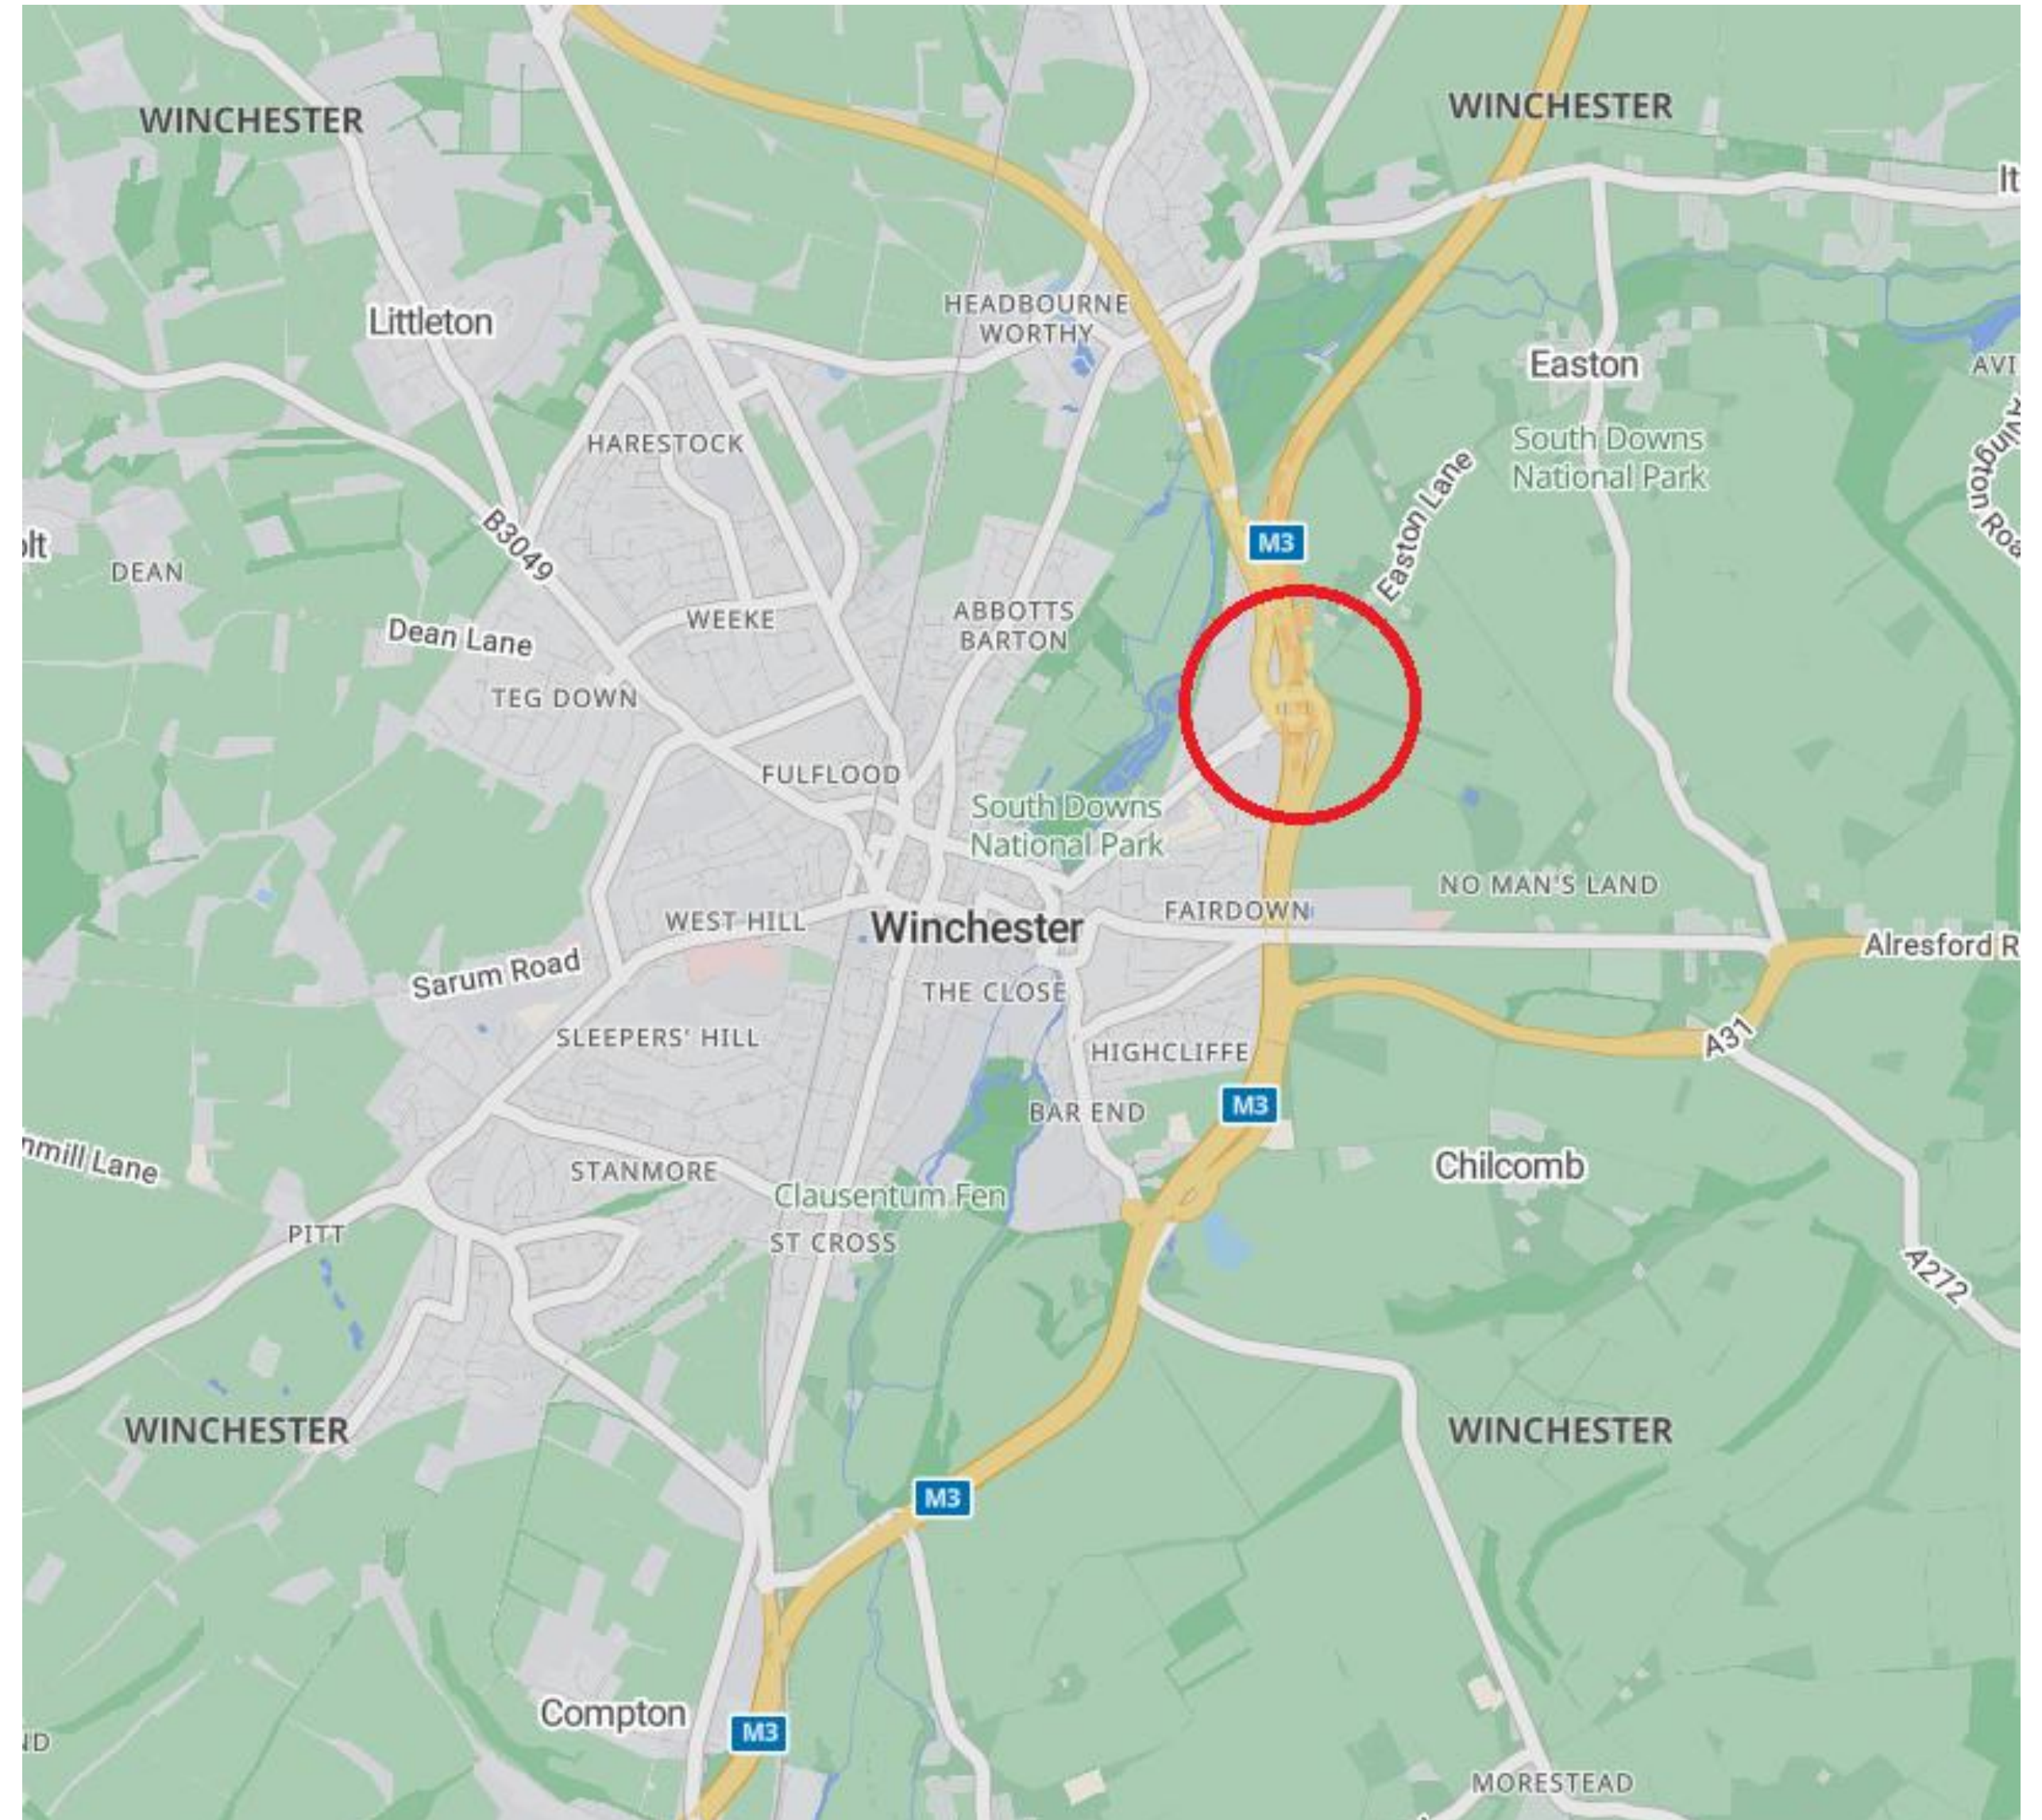

<https://one.network/?GB142877454>

The webpage includes latest news; monthly drone footage showing progress and background information including a CGI visual of the completed scheme

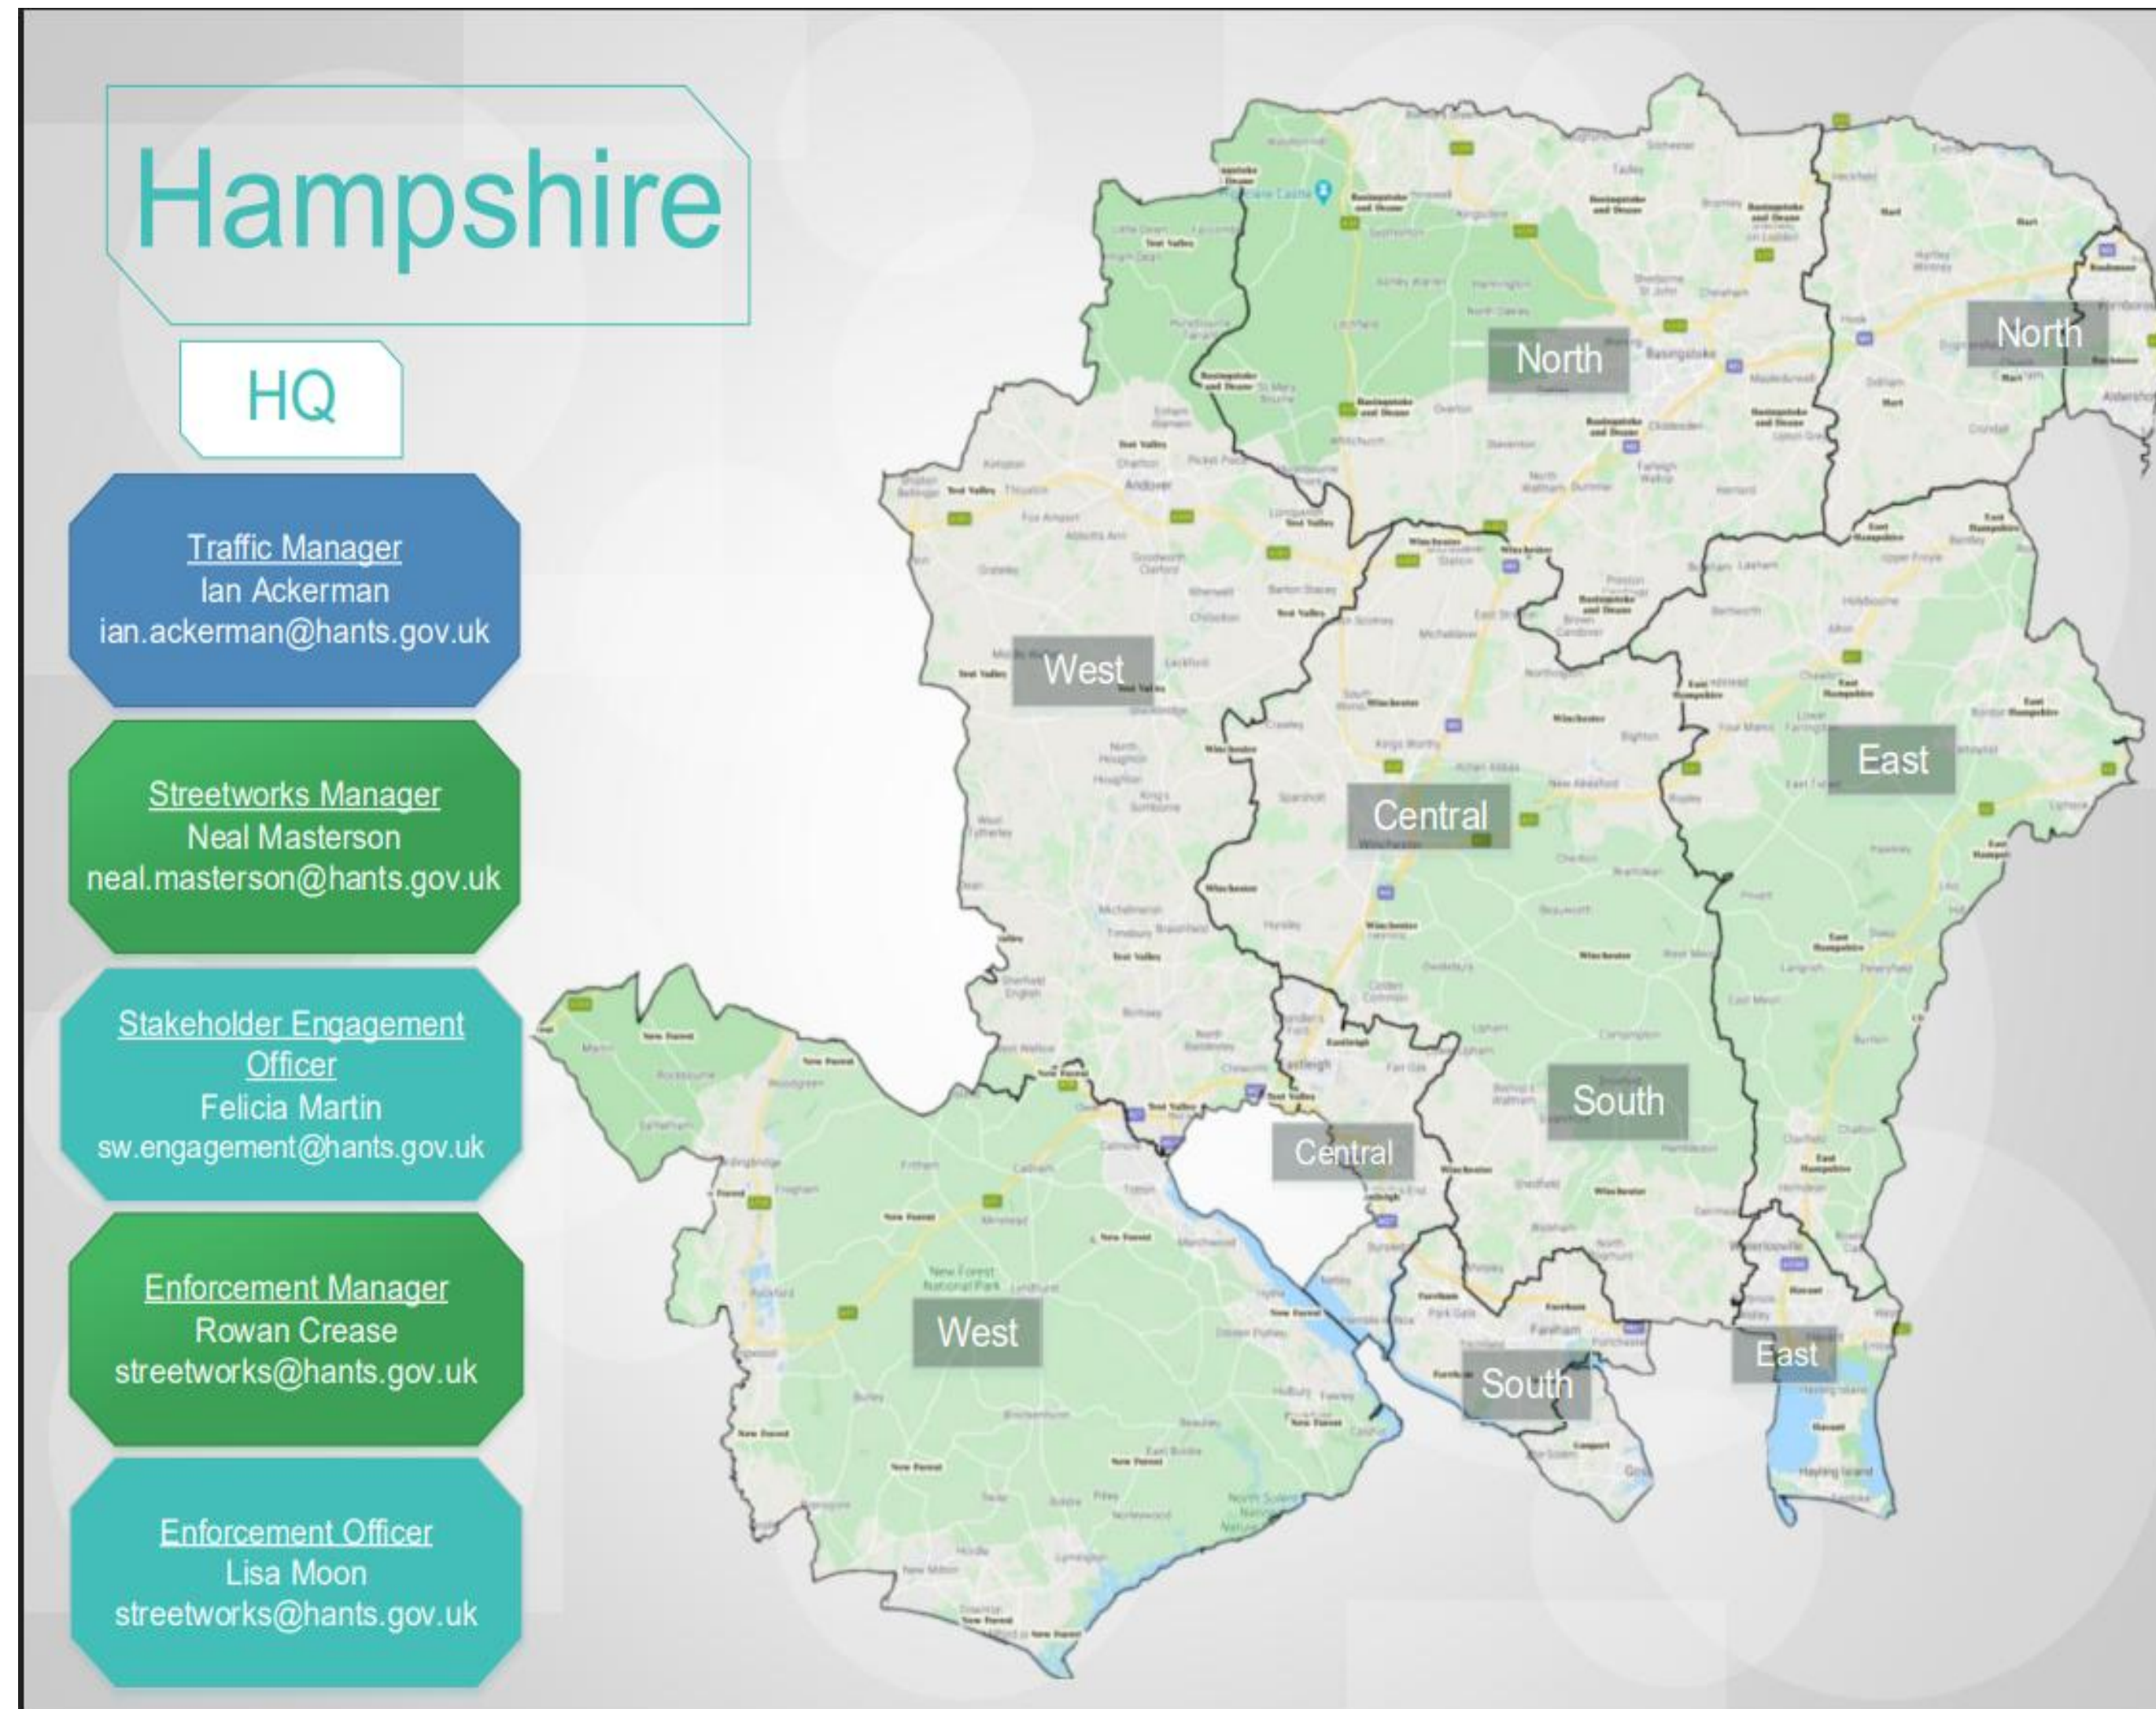

M3, Junction 9

- National Highways DCO
- Winchester A34 Junction
- Disruption until 2028
- <https://nationalhighways.co.uk/our-roads/south-east/m3-junction-9-improvements/>
- Weekend Closure of the M3 between Dummer (jct 8) and Winchester (jct 9) 13th to 16th Feb
- Heavy works restrictions in and around Winchester

CAT B	94.27%
CAT C	91.0%

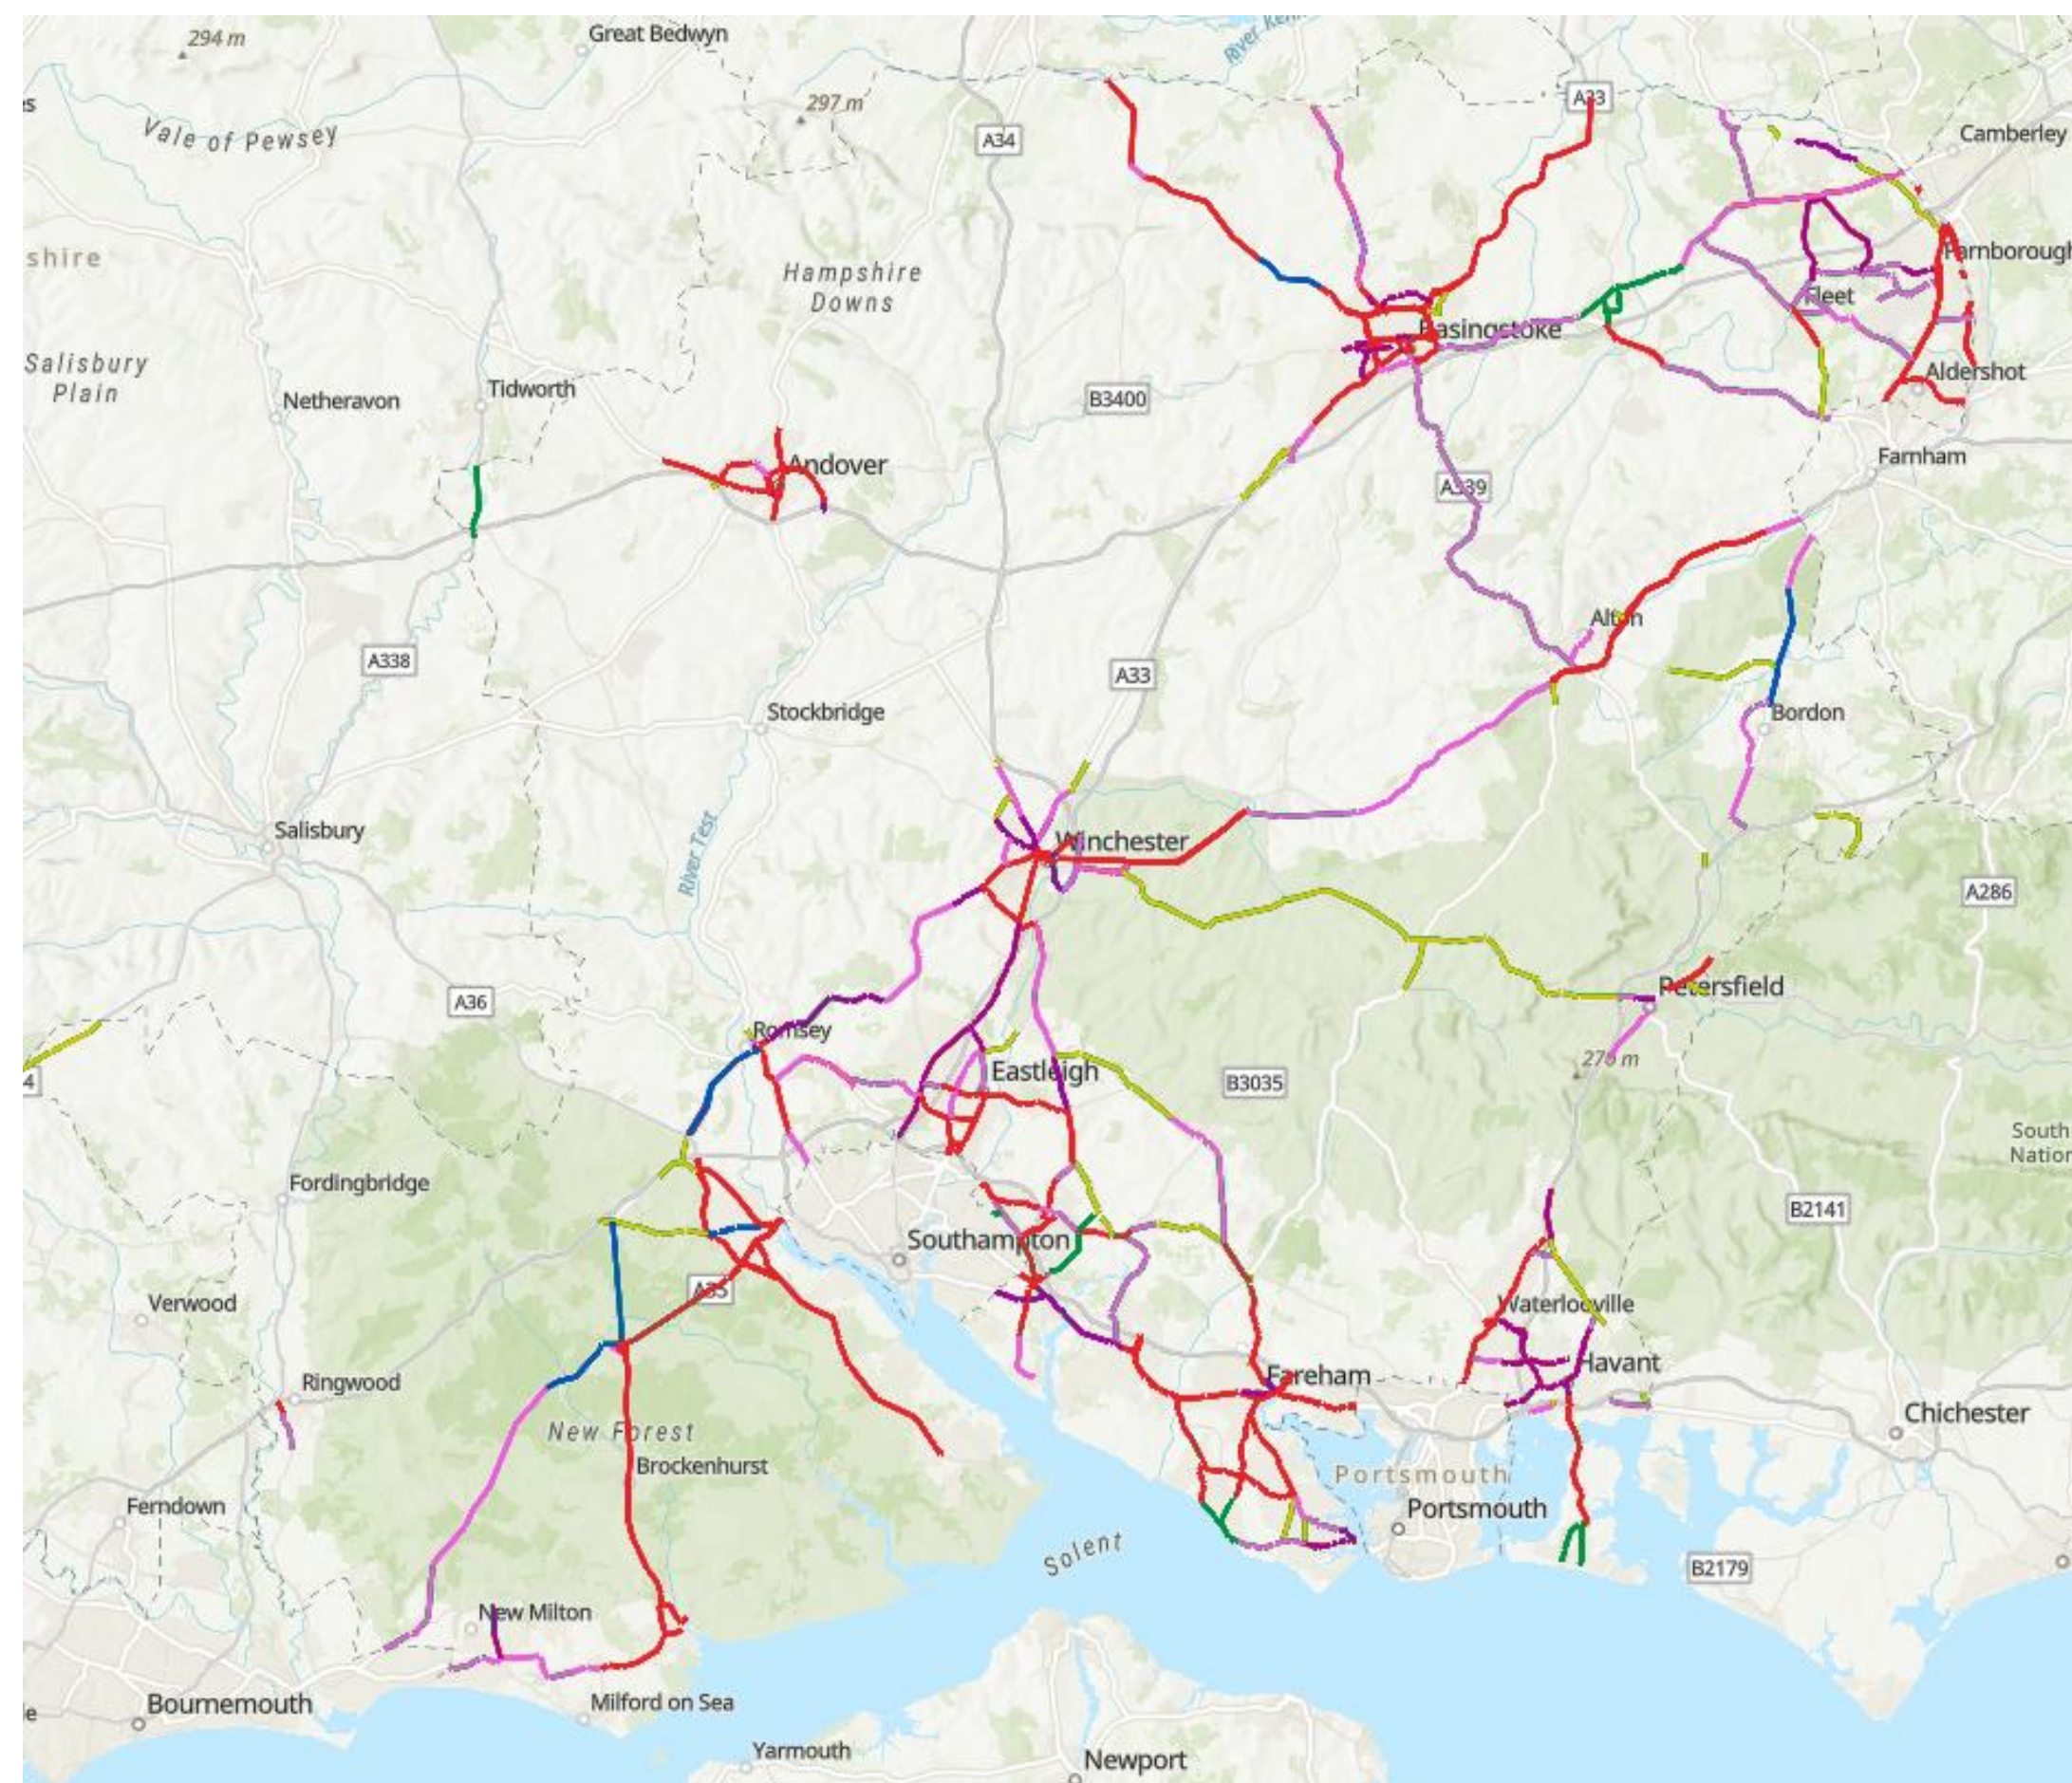

There were 147 FPNs issued, mostly for late start, stop and reinstatement notices and 71 overruns recorded.

Lane Rental Scheme Update:

Proposed Lane Rental Network

Routes shown are indicative and are subject to a review following consultation comments

Consultation Outcome

Consultation summary document to be made available shortly

Key themes were;

- **Concerns about the extent of the timings in which lane rental charges would apply and the possible increase in night works.**
- HCC response – we will be reviewing the network to ensure timings are appropriate to the route and correctly evidenced.
- **Concerns about increased night works.**
- HCC response – working docs will emphasise existing processes for liaising with Env Health teams.
- **Requests to provide additional clarification on discounts for specific schemes / projects, eg Building Digital UK (BDUK) Broadband rollout projects, and schemes that benefit the community.**
- HCC response – working docs will look to further clarify discounts and assessments on a case by case basis.

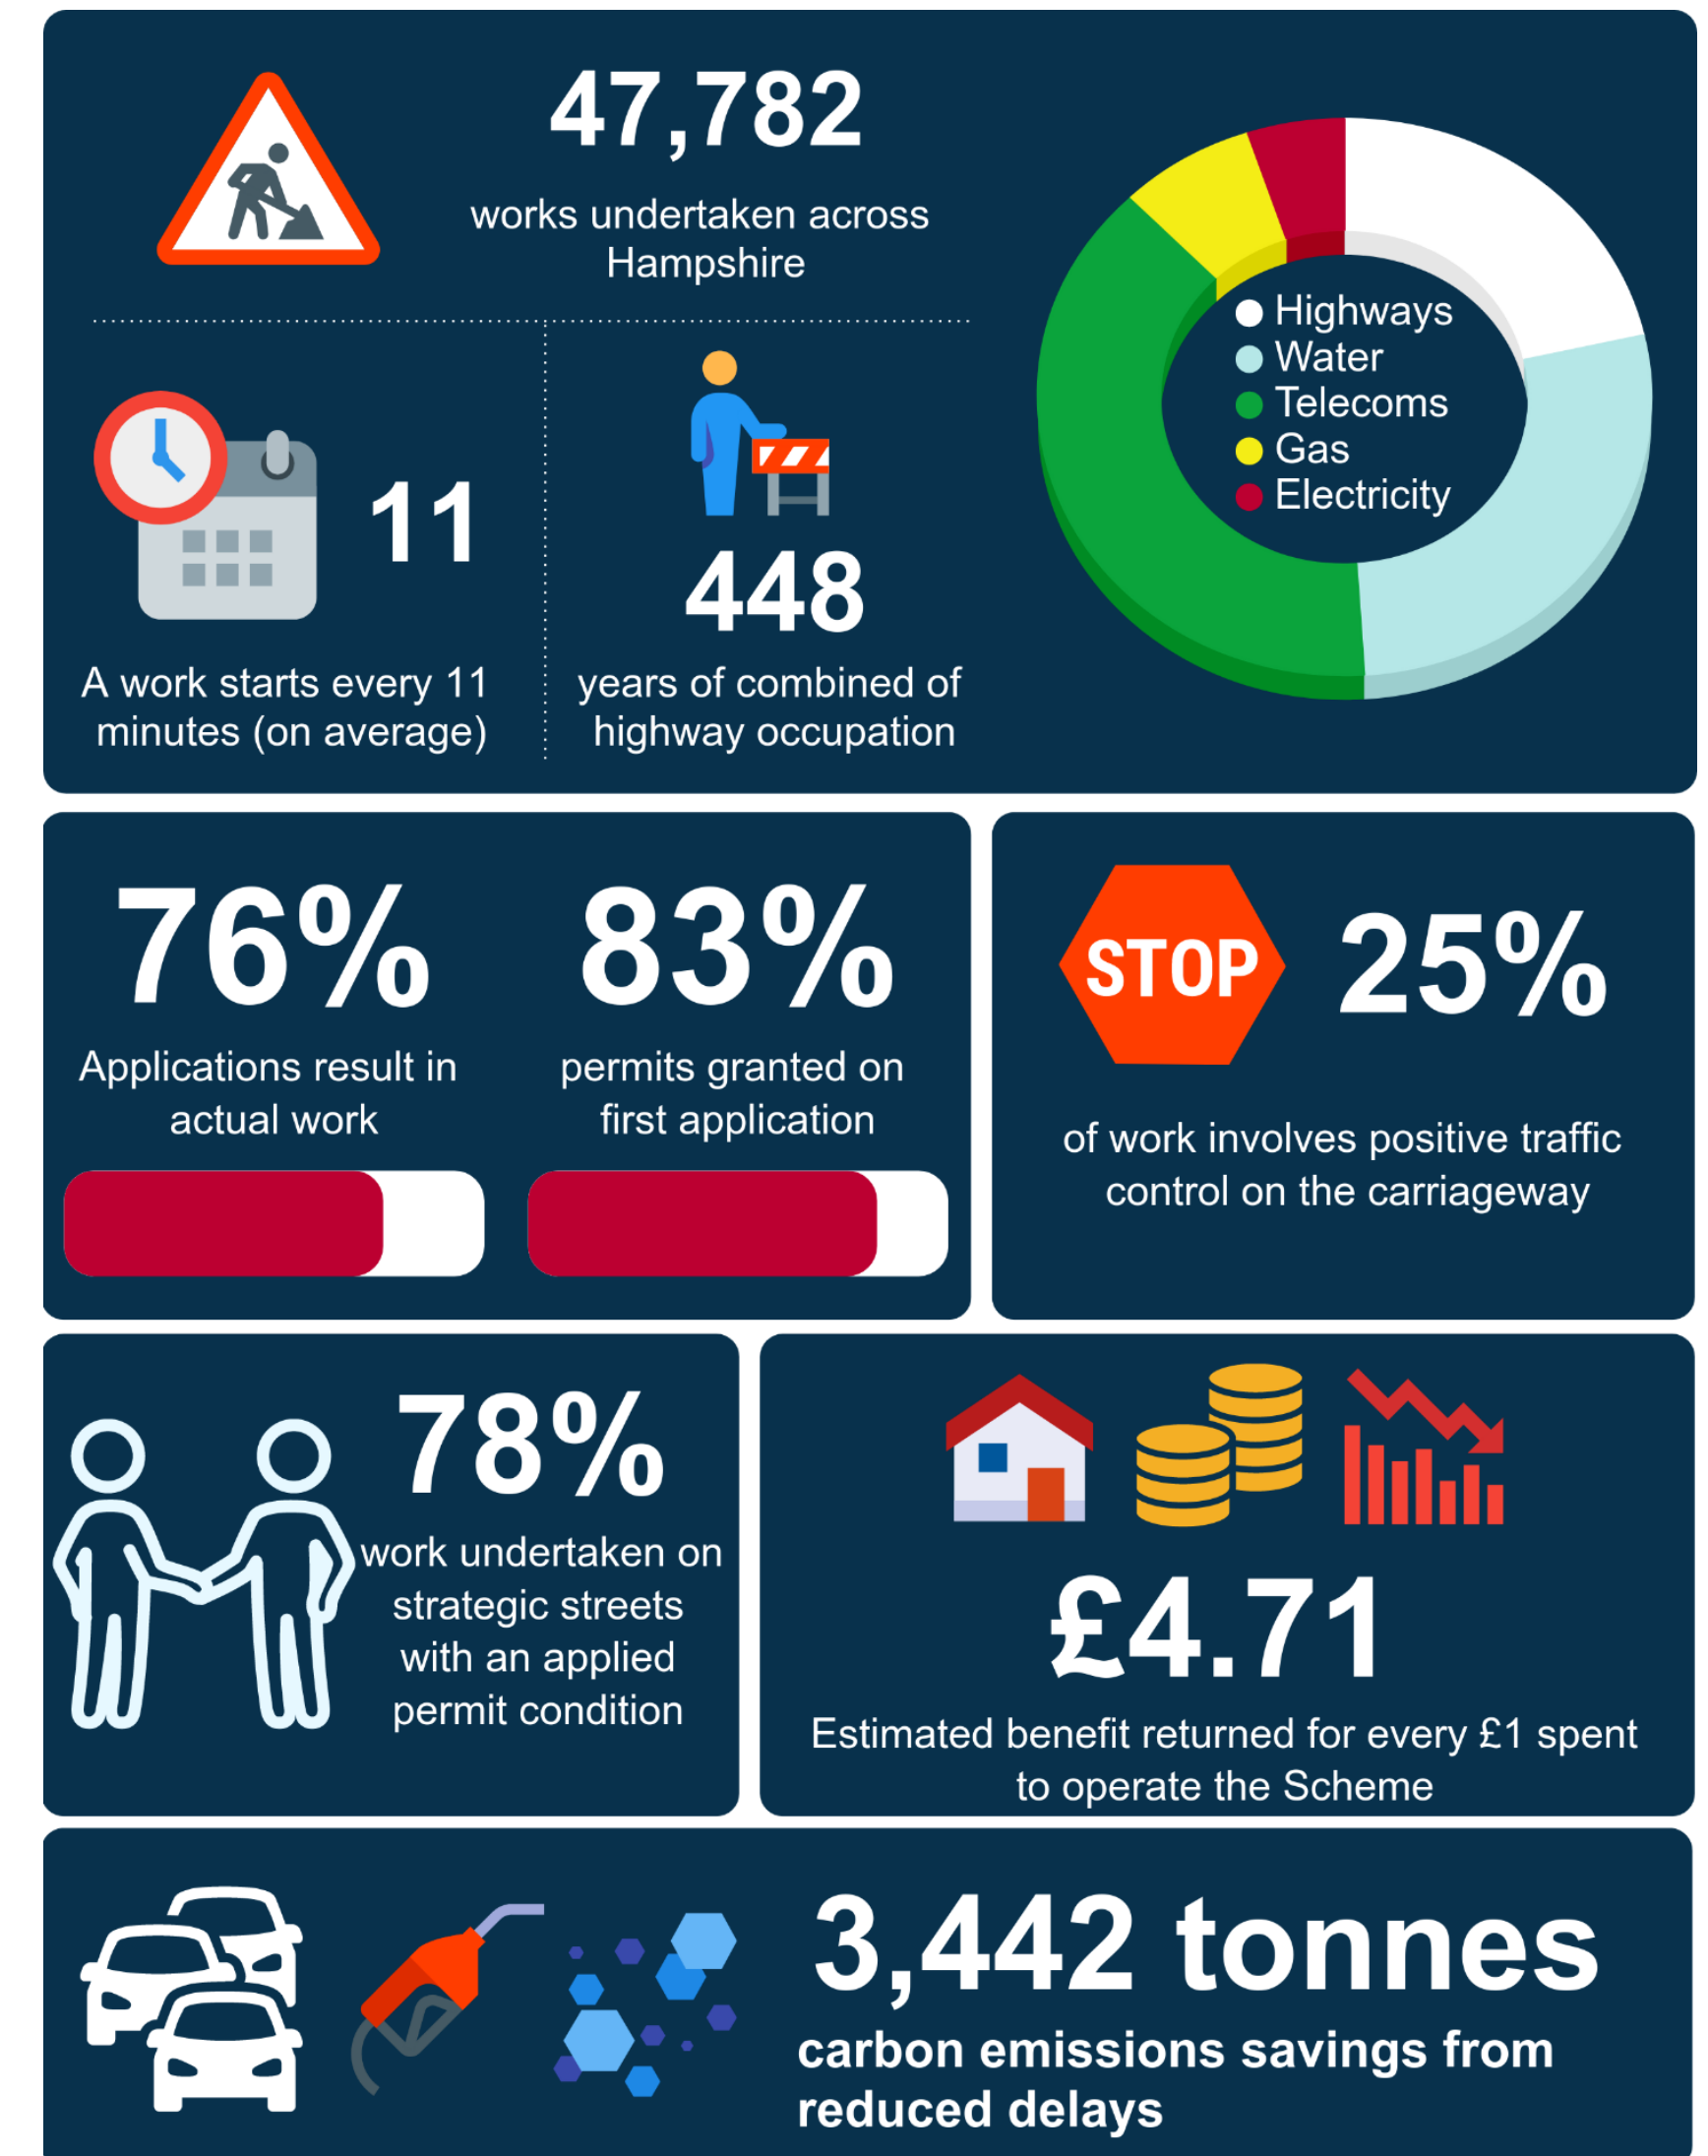

Timescale – Next Steps

Activity	Date
Formal Consultation	21 st July – 29 th August 2025
Finalise Network and Complete Scheme Review	Mid February 2026
Submit Lane Rental Application to DfT	Mid - Late March 2026
DfT Decision	July 2026 (dependent on DfT timescales)
Legal Notice and Trial Period	July to September 2026 (dependent on DfT approval date)
Recruitment	July to September 2026 (dependent on DfT approval date)
Commence Scheme	October 2026 (dependent on DfT approval date)

Permit Scheme Update:

Permit Scheme ‘Highlights’

- Since 2022 works volumes have remained high (compared to 39,000 works in the 2021); likely as a result of more investment in infrastructure, particularly the comms industry.
- The high volume of works means roadspace is at a premium.
- 2022-2025 permit scheme report shows scheme is working well. Report to be circulated shortly
- Finance report for the 2022-2025 shows that the scheme recovered approx. 400K more than the scheme cost to run. HCC is seeking legal advice on the best way to resolve this over-recovery.
- Owing to the significant increase in permits now being processed the team will shortly be seeking to employ additional staff.
- In the 2024/2025 year;
 - 87% of works on a traffic sensitive street had a condition placed on them relating to timing of the works.
 - 97% of planned works requiring a road closure had a condition placed on them regarding advanced publicity
 - 93% of inspected works complied with permit conditions
 - 2233 works duration extensions were requested
 - 51% of works were planned “minor” works
 - 31% of works were “immediate” works (35% in the previous year)

The infographic shows a yearly average from 2022 to 2025
